

3rd International Summer School on Smart Materials, Structures & Systems

The School is held in **Trento, Italy**, in the period **July 21-25, 2014**. The scope of the School is to provide a basic overview of **smart technologies** from a cross-disciplinary perspective with special focus on **biomimicry, nano- and micro-technologies, fiber optics, control devices, NDT evaluation, decision making**.

The School lecturers include:

Prof. **Dennis Bernal** (Northeastern University, USA)
Prof. **James Brownjohn** (University of Exeter, UK)
Prof. **Douglas S. Galvao** (University of Campinas, Brazil)
Prof. **Branko Glisic** (Princeton University, USA)
Prof. **Emad Jomehzadeh** (KGUT, Iran)
Prof. **Wieslaw Ostachowicz** (Polish Academy of Sciences, Poland)
Prof. **Ton Peijs** (Queen Mary University of London, UK)
Prof. **Hoon Sohn** (KAIST, Korea)

You can find more information on the School program at:

<http://events.unitn.it/en/smartstructures2014>

Who should attend

The School addresses **graduate students** and **post-doc researchers** pursuing research in the field of smart materials and structures. The registration deadline is **10 July 2014**.

To register, please visit the School website at <http://events.unitn.it/en/smartstructures2014>

Scholarships

The School offers **10 scholarships** to support participation of **international students** by covering their registration fee. Applicants should submit to the School Chairs by email (smartstructures@unitn.it): a 500-word statement of research interest; a personal CV including publication list; a letter of recommendation from their supervisor. Application deadline is **8 June 2014**.
