PROGRAM SUMMER SEMESTER 24

Wednesday, 6.03.2024, 3:30 pm

Key-Note: "A 'more than scientific' approach to motivating climate change mitigation"

Lindsey Nicholson (UIBK, Institute of Atmospheric and Cryospheric Sciences)

Wednesday, 13.03.2024, 3:30 pm

"Energy System of Systems – The way to accomplish the energy transition"

Albana Ilo (TU-Vienna, Institute of energy Systems and Electrical Drives)

Wednesday, 20.03.2024, 3:30 pm

"Including Donors in Payments for Ecosystem Services"

Esther Blanco (UIBK, Institute of Public Finance)

Wednesday, 17.04.2024, 3:30 pm

"Long Term Decision making for Climate Neutrality in a Transient Energy System"

Rainer Pfluger (UIBK, Unit Energy Efficient Buildings)

Wednesday, 15.05.2024, 3:30 pm

"Just Transition? The current Energy and climate crisis in historical perspective"

Patrick Kupper (UIBK, Department of History and European Ethnology)

Wednesday, 29.05.2024, 3:30 pm

"Climate Action in Austrian Cities: Current State and Future Outlook"

Oliver Schrot (Climate Coordinator City of Linz, Managing Director Zwanzigvierzig)

Wednesday, 12.06.2024, 3:30 pm

"Bioinspiration and Climate Protection"

Thorsten Schwerte (UIBK, Institute of Zoology)

Wednesday, 26.06.2024, 3:30 pm + closing event

"Climate Targets in the Area of Conflict Between Cost Benefit Analysis and Precaution"

Hermann Held (University of Hamburg, Centre for Earth System Research and Sustainability)

The Climate Protection Lecture Series aims to raise awareness of climate change among students from all disciplines as well as interested members of the public and motivate them to actively protect the climate.

Since 2019, the lecture series has highlighted a wide range of specialist and research topics relating to climate protection. International guest speakers from science and business report first-hand on opportunities, solutions and model projects in the field of sustainability with a focus on SDG 13 Climate Action.

The lecture takes place regularly in the summer and winter semesters as part of the Interdisciplinary and Generic Competencies (recognized as coursework) and Lectures for Future.

Since the summer semester 2022, the course has also been offered as part of the AURORA course program and therefore entirely in English.
