

09.03.2022

Lisa Silbernagl MSc (Bayerische Akademie für Naturschutz und Landespflege, Laufen, Deutschland), **Iris Trenkwalder MSc** (Atelier Gstrein, Innsbruck) & **Lena Nicklas MSc** (Bayerisches Artenschutzzentrum am Landesamt für Umwelt, Garmisch-Partenkirchen)

Von der Uni in die Praxis: Botanik-Absolventinnen berichten aus ihrem Arbeitsalltag

23.03.2022

Petr Kouřecký PhD, University of South Bohemia, České Budějovice, Czech Republic

**Polyploids, hybrids, and unexpected diversity hidden under water:
Ranunculus sect. *Batrachium* in central Europe, the Alps and elsewhere**

06.04.2022

Prof. Dr. Elvira Hörandl, Department of Systematics, Biodiversity and Evolution of Plants with Herbarium, Albrecht-Haller-Institute for Plant Sciences, Georg-August-University of Göttingen

The evolution of polyploid complexes: case studies on *Salix* and *Ranunculus*

27.04.2022

Prof. Dr. Martin A. Lysak, CEITEC – Central European Institute of Technology, Masaryk University, Brno, Czech Republic

Genomics-driven updates on chromosomal evolution in plants

11.05.2022

Guillaume Charrier PhD (guest researcher from Université Clermont-Auvergne, INRAE, France)

Integration of seasonal stress cycles in plant physiology

08.06.2022

Pau Carnicero Campmany PhD & Philipp Kirschner PhD, Institut für Botanik, Universität Innsbruck

Recent evolution of European plants - tales from the Pontic plains to the Pyrenees

22.06.2022

DI Dr. Verena Ibl, Department of Functional and Evolutionary Ecology, Division of Molecular Systems Biology, University of Vienna

Protein trafficking matters: The involvement of the ESCRT machinery in barley grains in response to abiotic stress

17:00 Uhr – Hörsaal A – Institut für Botanik
