

Guest lecture within the series on
“COVID-19 – Ländervergleichende Perspektiven auf den Umgang mit der
Krise an Hochschulen“

Albert Montagne (University of Alberta)

Covid-19: Higher Education Challenges and Responses in Canada

Monday, 12nd October 2020, 18 h (UTC +2), [BigBlueButton](#), Universität Innsbruck

By filling this [form](#) you can register for the guest lecture. Once you have registered, you will receive an e-mail containing the link to the guest lecture.

University closures due to the COVID-19 outbreak affected more than 2 million students across Canada. How can we continue to provide a high-quality learning experience for our students, and to maximize university research and service activities while at the same time ensuring the health and safety of all? Professor Montagne from the University of Alberta discusses the implications of technology-delivered instruction for teaching, learning and academic exchange.

Albert Montagne is Professor of Biological Sciences at the University of Alberta. Montagne's research interests focus on the ecology and ecosystem dynamics of mountain and cold-region environments, determinants of social-ecological resilience, and the interface between science and policy. Albert Montagne is instructor for Mountains 101, a 12-lesson Massive Open Online Course (MOOC) teaching a comprehensive overview of Mountain Studies.

Introduction and moderation: Univ.-Prof. Dr. Ursula Moser

Organizers: Länderzentren der Universität Innsbruck
