# Rural-Urban Linkages for Sustainable Development: An Economic Geography Perspective

July 19 – 21, 2018 | Campus Universitätsstrasse

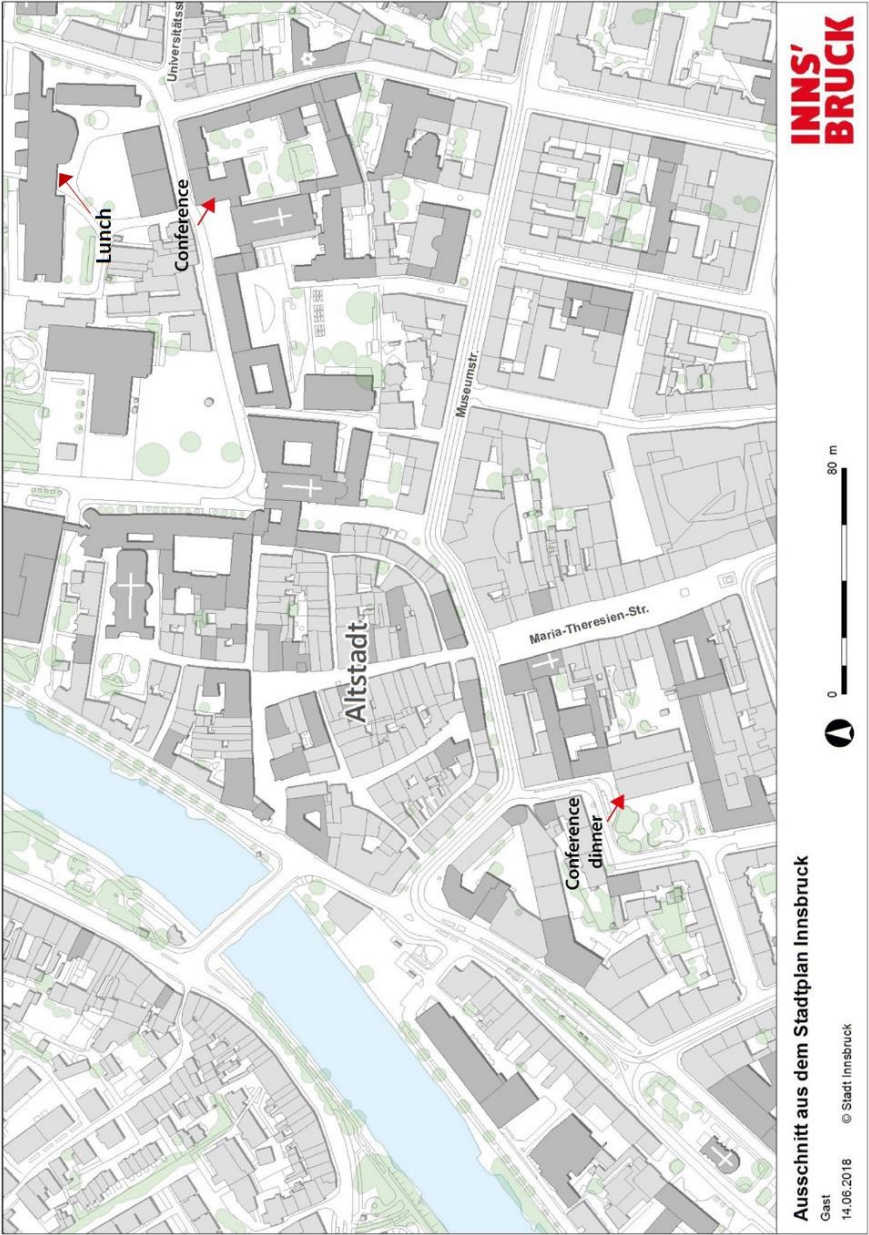

Karl-Rahner-Platz 3 |

Innsbruck (Austria)

**Supported by**

Faculty of Geo- and Atmospheric Sciences  
Research Centre Global Change - Regional Sustainability

# LOCATIONS

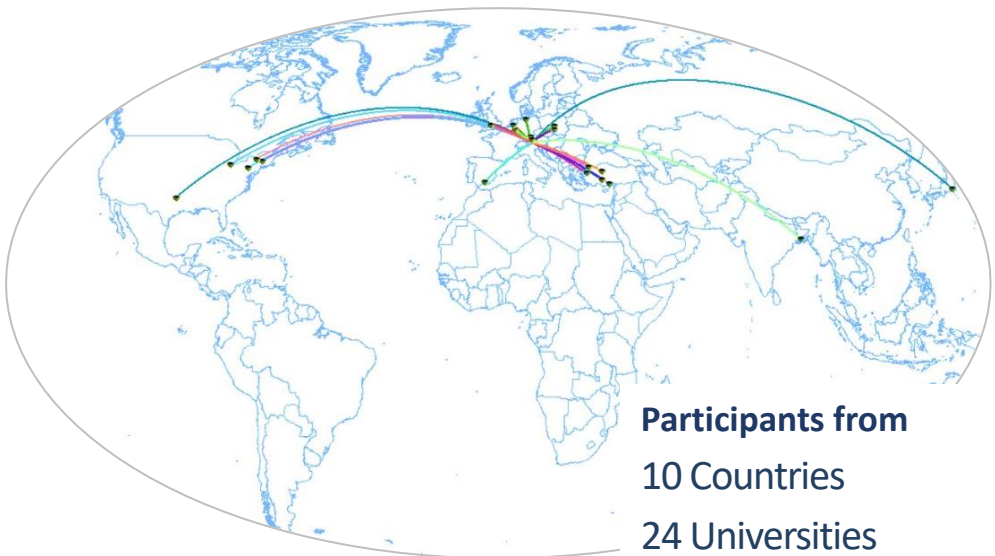

# Aims of the IGU Commission on “The Dynamics of Economic Spaces”

To extend **international research and scholarship** in economic geography through

- the development and dissemination of critical theoretical, conceptual and methodological frameworks
- the conduct of rigorous empirical and policy analyses and
- the building of research capacity in economic geography in different national and institutional contexts

To promote **international collaboration** in research activity and the dissemination of research findings.

To facilitate **knowledge transfer** about economic geography and associated policy-related issues **between countries and institutions**.
