Viewpoint – Point of View

Data collection, analysis, use

WHO / Social Determinants of Health; are the conditions in which people are born, grow, live, work and age.

These circumstances are shaped by the distribution of money, power and resources at global, regional and national level (rising inequality)

Lifelong learning # Mountain Equity

Sustainable Mountain **Development**

Mountain Sustainable Development

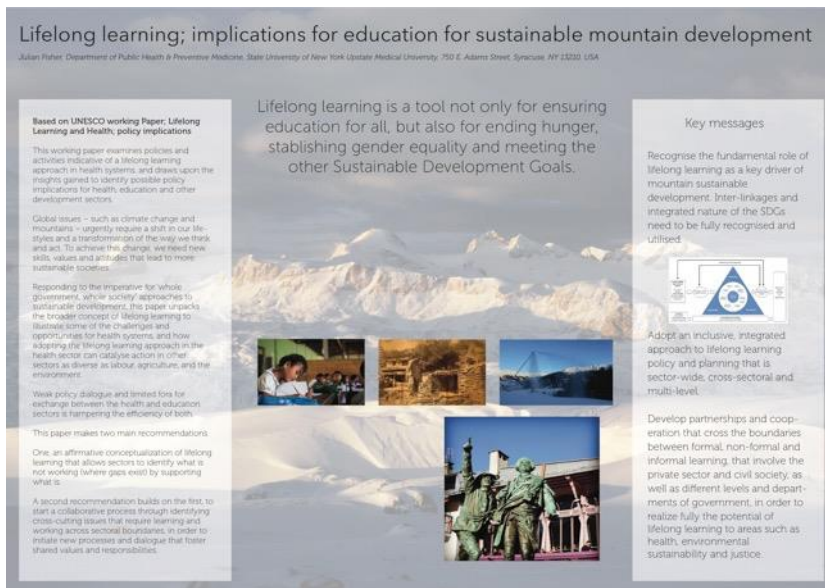

Mountain inequity;
unfair, unjust and systematic

Lifelong learning; what are the implications for education for Mountain Sustainable Development ?

KEY MESSAGES:

1. Lifelong learning is not a succession of technical learning, but a permanent work of empowerment and engagement to act in a changing world;
2. Lifelong learning is interconnected and interdependent, so must take place at all levels - global, regional, national, community, family and individual.

ACTION; Review of educational resources for education for mountain sustainable development across UN agencies.
