

Ökologisches Kolloquium

Wintersemester 2017/18

Mo 2.10.2017 16:30

Seminarraum Biologie, Foyer Technikerstr. 25

Prof. Dr. Blas Lavandero Icaza

Universidad de Talca, Instituto de Ciencias Biológicas, (Chile)

“Configurational and compositional effects of agricultural landscapes on the biological control of insect pests”

Mo 9.10.2017 16:30

Hörsaal A, Sternwartestraße 15

Prof. Giorgio Alberti & Prof. Alessandro Peressotti

University of Udine, Department of Agricultural and Environmental Sciences

“Chlorophyll-Deficient mutants are effective in mitigating radiative forcing?”

Mo 16.10.2017 16:30

Seminarraum Biologie, Foyer Technikerstr. 25

Assoc. Prof. Dr. Bálint Markó

Babeş-Bolyai University, Faculty of Biology and Geology, Cluj-Napoca (RO)

“The master of puppets and the smooth operator: individual and social manipulations of ants by parasitic fungi”

Mo 20.11.2017 16:30

Hörsaal B 2, Technikerstr. 13b

Dr. Christopher Robinson

Eidg. Anstalt für Wasserversorgung, Abwasserreinigung & Gewässerschutz (Eawag), Dübendorf (CH)

“Adding a floodplain perspective in the ecology of rivers”

Mo 15.01.2018 16:30

Seminarraum Biologie, Foyer Technikerstr. 25

Dr. Javier Diéguez Uribeondo

Real Jardín Botánico – CSIC Consejo Superior de Investigaciones Científicas, Madrid (ES)

“Emerging diseases and invasive species in freshwater ecosystems: the crayfish plague case”

Mo 22.01.2018 16:30

Hörsaal A, Sternwartestraße 15

Prof. Dr. Peter Freckmann

Hochschule Karlsruhe, Fakultät für Informationsmanagement und Medien,
Studiengang Geoinformationsmanagement (D)

“Hot-Spot-Analysis to Support the Visualization of Geo Spatial Data – an Attempt to Minimize the Subjectivity of Thematic Maps Using Geographic Information Systems (GIS)”

Mo 29.01.2018 16:30

Hörsaal A, Sternwartestraße 15

Dr. Maria Elena Popa

University of Utrecht, Institute for Marine and Atmospheric Research (NL)

“Exchange of carbon monoxide between atmosphere, soil and plants: insights from stable isotopic measurements and long term field experiments”

NEW
