

MSc. Ecology Seminar: Limnology SS 2018 (743333)

Montag, 9⁰⁰-10⁰⁰ Seminar Room Biology

Date	Name	Title	Supervisor or invited by
19.03	All students	Seminar information	R. Sommaruga
23.04	Chris Bellas	Understanding viruses and their hosts in extreme environments	R. Sommaruga
28.05	Christian Spanner	Freshwater endosymbiotic algae and their ciliate hosts: morphology, phylogeny and ecology (MSc Concept)	B. Sonntag (ILIM)
04.06	Tobias Grossgasteiger	Vergleich internationaler Methoden zur ökologischen Bewertung der Fischfauna in Fließgewässern (MSc Concept)	W. Mark
11.06	Theresa Walder	Bioalbedo am Jamtalferner	B. Sattler
	Bernd Fritz	Limnochemistry and zooplankton of 20 high alpine lakes located along an altitudinal gradient	K. Koinig und B. Tartarotti
18.06	Nadine Werner	Spatial and temporal dynamics of MAAs and production in benthic cyanobacteria from Gossenköllesee (MSc concept)	R. Sommaruga

Update: 12th March 2018
