

Ökologisches Kolloquium

Sommersemester 2019

April
08

Prof. Dr. Jan Frouz

(Charles University Prague, Institute for Environmental Studies)

„The role of real time interaction and legacy on ecosystem changes during succession“

16:30 Seminarraum Biologie, Technikerstr. 25

Mai
27

Dr. Blake Matthews

(Eawag, Aquatic Ecology Department, Center for Ecology, Evolution & Biogeochemistry, Dübendorf, Schweiz)

„Feedbacks in Ecology and Evolution“

17:00 Hörsaal B, Technikerstr. 25

Juni
11

Prof. Christopher Still Fulbright Visiting Professor

(Oregon State University | Forest Ecosystems and Society, Corvallis, U.S.A.)

„Forest ecosystem physiology: temperature, water, and carbon cycles“

17:00 Hörsaal A, Sternwartestr. 15

Juni
17

Dr. Karolina Sakowska

(Universität Innsbruck, Institut für Ökologie)

„Sun-induced chlorophyll fluorescence – remote sensing of photosynthesis“

17:00 Hörsaal A, Sternwartestr. 15

Juni
24

Prof. Roman Stocker

(ETH, Institut für Umweltingenieurwissenschaften, Zürich)

„A new frontier of microbial exploration“

17:00 Seminarraum Biologie, Technikerstr.
