

Ökologisches Kolloquium

WS 2022/23

October
10

Prof. Chuixiang Tree Yi, PhD

(Tenured full Professor, City University of New York, United States)

“Forest resilience and climate change.”

17:00 HS A, Sternwartestr. 15

November
14

Arturo Elozegi

(Univ. Basque Country (EHU-UPV))

“Effects of the decommissioning of a large dam on freshwater communities and ecosystem functioning.”

17:00 e-lecture online

December
5

Dr. Marco Mina

(Institut für alpine Umwelt, Eurac Research, Bozen)

“Models for sustainable forest management.”

17:00 HS A, Sternwartestr. 15

December
19

Núria Bonada, PhD

(Department of Evolutionary Biology, Ecology and Environmental Sciences,
Section of Ecology, University of Barcelona)

“Freshwater Biodiversity in Mediterranean climate regions: current status and future trends.”

17:00 e-lecture online

January
9

Dr. Joana Isabel Meier

(Group Leader, Meier Group Genomics of rapid speciation and adaptation, Wellcome Sanger Institute)

“Rapid speciation facilitated by admixture.”

17:00 HS C, Technikerstr. 25a

January
16

Maja Zagmajster, PhD

(SubBioLab, Department of Biology, University Ljubljana, Slovenia)

Title will be announced soon.

17:00 HS C, Technikerstr. 25a

January
23

Dr. Christina Biasi

(University of Eastern Finland, Dept. of Environmental and Biological Sciences. Currently at University of Innsbruck, Research Group Functional Ecology)

“Nitrous oxide - the forgotten greenhouse gas from permafrost soils.”

17:00 HS A, Sternwartestr. 15

January
30

María Gómez-Brandón, PhD

(Ramón y Cajal-funded Fellow, Animal Ecology Group – GEA, Torre CACTI-Lab 97, University of Vigo)

Title will be announced soon.

17:00 e-lecture online
