

# Ökologisches Kolloquium

Wintersemester 2022/23

October  
10

**Prof. Chuixiang Tree Yi, PhD**

(Tenured full Professor, City University of New York, United States)

**“Forest resilience and climate change.”**

17:00 HS A, Sternwartestr. 15

October  
17

**Núria Bonada, PhD**

(Department of Evolutionary Biology, Ecology and Environmental Sciences,  
Section of Ecology, University of Barcelona)

**Title will be announced soon.**

17:00 e-lecture online

November  
14

**Arturo Elosegi**

(Univ. Basque Country (EHU-UPV))

**“Effects of the decommissioning of a large dam on freshwater communities and ecosystem functioning.”**

17:00 e-lecture online

December  
12

**Dr. Christina Biasi**

(University of Eastern Finland, Dept. of Environmental and Biological Sciences. Currently at University of Innsbruck, Research Group Functional Ecology)

**“Nitrous oxide - the forgotten greenhouse gas from permafrost soils.”**

17:00 HS A, Sternwartestr. 15

January  
9

**Dr. Joana Isabel Meier**

(Group Leader, Meier Group Genomics of rapid speciation and adaptation, Wellcome Sanger Institute)

**“Rapid speciation facilitated by admixture.”**

17:00 in person, location will be announced soon

January  
16

**Maja Zagmajster, PhD**

(SubBioLab, Department of Biology, University Ljubljana, Slovenia)

**Title will be announced soon.**

17:00 in person, location will be announced soon

January  
30

**María Gómez-Brandón, PhD**

(Ramón y Cajal-funded Fellow, Animal Ecology Group – GEA, Torre CACTI-Lab 97, University of Vigo, Spain)

**Title will be announced soon.**

17:00 e-lecture online
