

Short CV

Education

- 2012** Master's degree in Microbiology and Biotechnology for the Environment (honours), University of Pau, France
- 2010** Bachelor's degree in Biology, Environmental Microbiology, University of Pau, France
- 2009** BTEC Higher National Diploma (honours), Environmental Biology, University of Perpignan, France

Professional Experience

- 2012** *Equipe Environnement et Microbiologie* (UMR CNRS IPREM5254), **University of Pau** (France), Master thesis : Alachlor pesticide degradation's mechanisms, cultural, and molecular approach.
- 2011** School of Marine Science and Policy, **University of Delaware** (USA), oceanographic campaign organized by David L. Kirchman's laboratory: Enrichment with glucose and pyruvate influence on SAR11 group communities.
- 2011** Banyuls-sur-mer Oceanological Observatory (LOMIC UMR 7621), **Paris VI University** (France), work placement : Influence of light on the expression of proteorhodopsin gene containing SAR11 group in Mediterranean Sea.
- 2009** **University of Manitoba** (Canada), department of Soil Science, work placement : Diet and overwintering impacts on beef cattle productivity, soil nutrient implications and greenhouse gas production.
