Curriculum for the Bachelor's Programme Philosophy at the Faculty of Catholic Theology, University of Innsbruck

§ 1 Qualification profile and objectives

- (1) The Bachelor's Programme Philosophy at the Faculty of Catholic Theology offers fundamental philosophical education with special attention to religious questions of mankind. In this context, open philosophizing of current important issues is demanded. According to the programme objectives of universities (cf. UG 2002 § 1), the study programme qualifies for intellectual formation of students, broadens their intellectual horizons and contributes to philosophical thinking leading to basic ideological questions and an understanding of well-founded and reflected convictions.
- (2) The bachelor's programme provides comprehensive philosophical basic education taking ancient and scholastic traditions as well as current positions into account. The focus is laid on ideological issues of mankind and the possibilities and limits of philosophical knowledge of God (metaphysics with philosophical doctrine of God), questions of man (philosophical anthropology) as well as right action in the life of the individual and the social environment (ethics with social philosophy). In this context, basic systematics and historical knowledge of these subjects is required, i.e. logics, philosophy of language, scientific theory and history of philosophy.
- (3) These contents and structures of the Bachelor's Programme Philosophy at the Faculty of Catholic Theology also define its fields of application and the professional qualifications achieved. A combination with a theological programme presents itself as an enriching possibility. Moreover, the bachelor's programme also provides its own professional qualification in the sense of § 51 Abs. 2 Z 4 UG 2002 for occupations that require guidance and coordination of complex and unforeseen concepts of work or learning. Special emphasis is placed on key qualifications, such as highly specialized orientation knowledge, the special ability of critical analysis, and of plausible and academically responsible argumentation, also in the realms of society and culture, the media and politics. The bachelor's programme prepares graduates for occupational opportunities in education, media, administration as well as science. Additionally, the bachelor's programme qualifies for the Master's Programme Philosophy at the Faculty of Catholic Theology.

§ 2 Classification

The Bachelor's Programme Philosophy is grouped among the theological studies.

§ 3 Scope and Duration

The Bachelor's Programme Philosophy covers 180 ECTS-Credits and has a duration of six semesters.

§ 4 Types of courses and maximum number of participants

(1) Courses without continuous performance assessment:

1. **Lectures (VO)** are courses held in lecture format. They introduce the research areas, methods and schools of thought for a given subject. Maximum number of participants: 126
2. **Studies orientation courses (SL)** provide an overview of the study programme and its structure. They give students an objective basis to assess their decision to pursue their chosen subject. Maximum number of participants: 25
