Curriculum for the  
**Master's Programme in Catholic Religious Education**  
at the Faculty of Catholic Theology, University of Innsbruck

**§ 1 Allocation**

The Master's Programme in Catholic Religious Education is allocated to the group of theological study programmes.

**§ 2 Qualification profile**

- (1) The Master's Programme in Catholic Religious Education offers an advanced theological and religious training with special focus on religious education and adult education, counselling and pastoral care. The study programme is marked by a theological and multi-perspective understanding of education and didactics and promotes the graduates' communicative, interdisciplinary and inter-religious competences. The general principles of educational science, subject-didactics and the pedagogical studies in connection with the school practice, complement the subject-scientific education.
- (2) In particular, the graduate acquires the following qualifications
  - They are able to perceive and independently deal with theological problems and issues of religious education.
  - They have the ability to discourse on socially relevant questions of religion and worldview, taking into account diversity and gender aspects. They are able to represent well-founded points of view in the sectors of school, education and pastoral care.
  - They are able to design and manage interreligious education and dialogue processes in a pluralism-sensitive manner.
  - They are able to relate the essences of different statements of faith to one another
  - They can assess the ecclesiastical and social reality from the point of view of the Christian faith, taking into account the knowledge of relevant individual sciences.
  - They are able to use the relevant sources and literature independently for their professional tasks.
  - They are able to integrate their philosophical-theological knowledge into their own personality.
- (3) The Master's Programme in Catholic Religious Education prepares students for professions in educational institutions, in church and social institutions, but also in the public, which require full academic and theological training with a focus on (religious) educational or pastoral competence.

### **§ 3 Scope and duration**

The Master Programme Catholic Religious Education covers to 120 ECTS-Credits, which equals a duration of four semesters.

### **§ 4 Admission**

- (1) Admission to the Master's Programme Catholic Religious Education requires the completion of a subject-specific Bachelor's Programme or a subject-specific Bachelor's Programme at a University of Applied Sciences or another comparable study programme at an approved post-secondary educational institution home or abroad. In the event that equivalence has been established in principle but with certain qualifications missing for full equivalence, supplemental examinations may be required by the rectorate. These examinations must be passed during the master's programme. The rectorate decides which examinations are a prerequisite for passing the exams specified by the curriculum of the master's programme.
- (2) In any case, the Bachelor's Programme in Catholic Religious Education passed at the University of Innsbruck is a relevant study programme in terms of par. 1.

### **§ 5 Types of courses and maximum number of students per course**

- (1) Types of courses without continuous performance assessment:  
Lectures (VO) are courses held in lecture format. They introduce the research areas, methods and schools of thought for a given subject.
- (2) Courses with continuous performance assessment:
  1. Lectures with integrated practical parts (VU) focus on the practical treatment of concrete scientific tasks that are discussed during the lecture parts of the course.
  2. Seminars (SE) provide in-depth treatment of scientific topics through students' presentations and discussion thereof. Maximum number of participants: 20
  3. Practical courses (UE) focus on the practical treatment of concrete scientific tasks within an area. Maximum number of participants: 25
  4. Practical training courses (PR) provide practical experience with concrete scientific tasks, complementing occupational and academic training. Maximum number of participants: 14

### **§ 6 Allocation of places in courses with a limited number of participants**

In courses with a limited number of participants, course places are allocated as follows:

1. Students for whom the study duration would be extended due to the postponement are to be given priority.
2. If the criterium in no. 1 does not suffice, first, students for whom this course is part of a compulsory module are to be given priority, and second, students for whom this course is part of an elective module.
3. If the criteria in no. 1 and 2 do not suffice, the available places are drawn by random.
