

Einladung zum Hearing „Aquatische Evolutionsökologie“

Seminarraum 2. Stock/Raum 202, Mondseestr. 9, 5310 Mondsee

Mittwoch, 18. April 2018		
Zeit	Vortragende/r	Titel des Vortrags
10:00 Uhr	Prof. Dr. Thomas U. Berendonk (TU Dresden)	Two case studies of aquatic evolutionary ecology: Antibiotic resistance in the aquatic environment, the pearl mussel and climate change
12:00 Uhr	Pause	
13:00 Uhr	Dr ⁱⁿ . Elizabeta Briski (Helmholtz Centre for Ocean Research Kiel)	The newcomers in your lake – how did they do it?
15:00 Uhr	Dr. Patrick Fink (Universität Düsseldorf)	Impacts of biodiversity and nutritional quality for the plant-herbivore interface in aquatic food webs
17:00 Uhr	Dr ⁱⁿ . Dagmar Frisch (Universität Birmingham)	Global change, palaeogenomics and Daphnia time travelling
Donnerstag, 19. April 2018		
08:00 Uhr	Dr. Thomas Posch (Universität Zürich)	A short journey into bacteria-protists interactions in freshwater systems
10:00 Uhr	Dr. Otto Seppälä (ETH Zürich)	Natural selection on immune function
12:00 Uhr	Pause	
13:00 Uhr	Prof. Dr. Matthias Stöck (Leibniz-Institute of Freshwater Ecology and Inland Fisheries)	Aquatic Evolutionary Ecology under Non-alpine and Alpine Conditions
