

# 1<sup>st</sup> Student Colloquium

## CLIMATE CHANGE AND CONSEQUENCES

17. and 18. November 2011

© Ben Marzeion

University of Innsbruck  
Centre of Climate and Cryospheric Research

### FINAL CALL:

Submit your abstract before 17.10.2011 to participate in the  
1<sup>st</sup> Student Colloquium on Climate Change and Consequences!

#### What's it about?

- Master students or recent graduates of our University presenting the work and progress of their Master's theses in **oral and poster presentations**
- Topics related to climate change and its consequences
- Guest speaker:  
**DORTHE DAHL-JENSEN** (Centre for Ice & Climate, Niels Bohr Institute: University of København)

#### Why should I come along?

- to exchange ideas & get to know each other
- an opportunity to experience the feeling of a meeting
- to build up a reputation
- an opportunity to develop presenting skills
- to advance your career
- the chance to win an award for your poster or presentation

#### How can I participate?

- Submit your **abstract** (further info on the homepage) before **17.10.2011**

#### Where can I find more information?

<http://www.uibk.ac.at/climate-cryosphere>
