

# Programme: changes and corrections

## Talks:

**Tuesday 27.09.2016, 11:15:**

**in the printed programme the entire row of this time slot was lost. Sorry for the inconvenience**

In D3: Structure, geodynamics and evolution of the Alps and the Mediterranean (SoWi Aula)

**Proposal for a new subdivision of the Nappe Systems of the Northern Calcareous Alps (Eastern Alps, Austria)**

Mandl, Gerhard W.; Brandner, Rainer; Gruber, Alfred:

In E4 - Young sedimentologists (HS1)

**Variability of intermediate and deep water mass circulation during the last 20 ka: An approach on mid-slope canyon sediments**

Warratz, Grit; Henrich, Rüdiger; Voigt, Ines; Schwenk, Tillmann; Krastel, Sebastian

In B2 - Terrestrial ecosystems: palaeoecology and evolution of land-based biotas (HS3)

**A new terrestrial archive for the Eocene greenhouse of Central Europe: Palynological evidence from lacustrine sediments at "Grube Prinz von Hessen" (Hesse, GER)**

Moshayedi, Maryam; Lenz, Olaf K.; Wilde, Volker; Hinderer, Matthias

In A2: Shallow landslides and rockfalls (HS2)

**Felssturz an der A9 Pyhrnautobahn, Wald/Schoberpass: Ereignisanalyse, Sicherheitsmanagement und Gefahrenanalyse**

Koch, Gerhard; Schober, Andreas

In N: Open Session (UR3)

**BasinVis 1.0, an open-source software package to visualize sedimentary basin infill and subsidence evolution**

Lee, Eun Young; Novotny, Johannes; Wagreich, Michael

## New talks:

Tuesday 27.09.2016, 17:15 HS3

In B3: Biotic and chemostratigraphic events in Earth history

**Stratigraphic signals around the Santonian-Campanian boundary carbon isotope event**

Wagreich, Michael; Wolfgring Erik; Spötl Christoph

## Canceled talks:

Tuesday 27.09.2016, 17:15 HS3

In B4: Marine benthic ecosystems under low oxygen conditions

**Jurassic ocean deoxygenation: the shifting palaeoecological dynamics of seafloor communities**

Caswell, Bryony Amber; Frid, Christopher L.J.

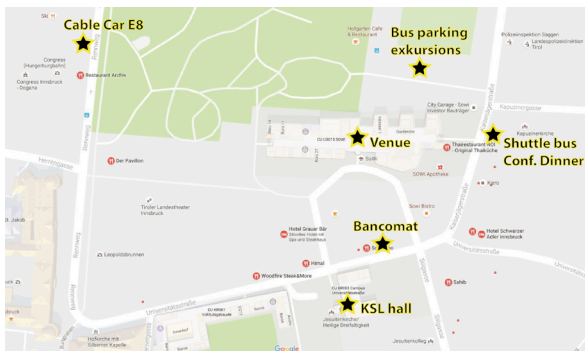

## Change of the presenting author:

Wednesday 28.09.2016, 09:15 HS1

In H: Hydrogeology and Environmental Geology

**Impact of mass movements on hydrogeological systems: An example from Carinthia, Austria**

Thalheim, Felix; Winkler, Gerfried

## Posters:

The assignment of the Topics to the two poster sessions was not reported correctly everywhere in the printed programme overview. This is the final assignment:

**Poster Social Monday: Sessions C4, C5, D4, D5, D6, E1, E2, E4, F-Bodensee, G, N**

**Poster Social Tuesday: Sessions A1, A2, A3, A5, B1, B2, B3, C1, C2, C3, D1, D2, D3, H, I, K, L**

## New Posters:

Poster 22) in B3: Biotic and chemostratigraphic events in Earth history

**Stratigraphic signals around the Santonian-Campanian boundary carbon isotope event**

Wagreich, Michael\*; Wolfgring, Erik; Spötl, Christoph

Poster 145) in D4: Tectonics, climate and erosion

**New data about the uplift of the Eifel-Mountains**

Salamon, Martin\*; Klein, Winfried; Krickel, Bernd; Riecken, Jens

Poster 146) in D5: Orogenic sedimentary basins

Meszar, Maria Elisabeth\*; Gier, Susanne; Palzer-Khomenko, Markus; Knierzinger, Wolfgang; Kallanxhi, Madalina-Elena; Wagreich, Michael

**Clay mineralogy of Miocene mudstones of the Molasse Zone, Lower Austria**

Student poster

## Change of the presenting author:

Poster 92) in F3: Stability of natural and artificial slopes / Stabilität von nat. u. künstl. Böschungen u. Hängen

**The impact of reservoir impounding on the stability evolution of deep-seated rock slides: a discrete element modelling approach**

Lechner, Heidrun; Preh, Alexander; Strauss, Alfred; Zangerl, Christian\*

Student poster

## Cancelled Posters:

Poster 22) in B4: Marine benthic ecosystems under low oxygen conditions

**Recovery of seafloor communities from Toarcian oceanic anoxia: the case of the bivalve *Dacryomya***

Caswell, Bryony Amber\*; Dawn, Stephanie J.

Poster 34) in C4: Ophiolites in space and time

**Ophiolitische Komplex der Mirdita Tektonischezone (Albanien)**

Onuzi, Kujtim\*

Poster 41) in D1: From rift to drift

**The ultramafic body of Nauders – part of the deeper mantle of the Tasna Ocean-Continent-transition**

Rufus J. Bertle\*; Friedrich Koller

Poster 117) in I: Geo-environmental monitoring using remote- and closerange-sensing techniques

**Flash flood risk assessment for upper Teesta River Basin using the hydrological modeling system (HEC-HMS) software**

Chakrabarty, Abhisek\*; Mandal, Subhra Prakash

Poster Nr. 139) in N: Open Session

**Geological mapping 1:50:000 (GG and UTM) in Albania and correlation with the neighbouring areas**

Onuzi, Kujtim\*

Poster 140) in N: Open Session

**Proglacial lake formation and sedimentation in high alpine terrain – new insights from the Obersulzbachkees proglacial lake, Hohe Tauern, Austria**

Otto, Jan-Christoph\*; Keuschnig, Markus
