

## Symposium: “Immunosenescence – Hot Topics & Interventions”

The Austrian immunologists will host the European Congress of Immunology (ECI) in Vienna in September 2015. For this outstanding international conference several thousand participants are expected. Together with other international scientists Birgit Weinberger (Immunology Group) is organizing the Symposium “Immunosenescence: Hot Topics & Interventions”, which will take place **September 5<sup>th</sup>&6<sup>th</sup> 2015 in Vienna, Austria** as a Satellite Symposium of the ECI. This meeting will bring together leading experts in the areas of basic immunological research, translational research and industry, who share an interest in age-related changes of the immune system.

Online registration and abstract submission is open now!  
Registration: <https://webapp.uibk.ac.at/congress/eci2015/>
