

# General Pedagogical Knowledge in Teacher Education (pKiTE)

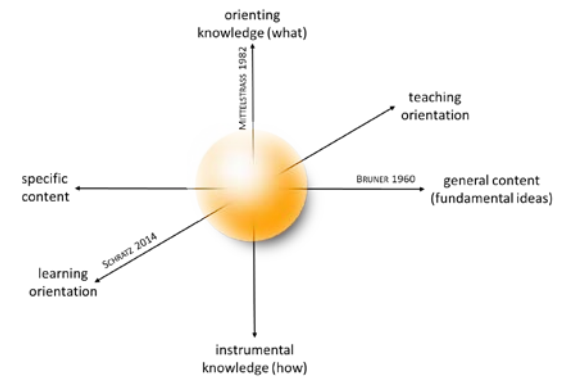

*Ann-Kathrin Dittrich, Christian Kraler*

Department of Teacher Education and School Research

University of Innsbruck, Austria

# Overview

- I. Introduction
- II. Methodological approach
- III. Findings & Modell
- IV. Future directions

## Basic methodological philosophy:

- Restriction to formal education (with context in mind)
  - ← systemic approach
- Formal education as mirror of society (reflection, replication, realisation of societal developments and phenomena like globalisation, acceleration, individualisation,..., competence orientation, standards, controlling,...)
- Triangles as an analytical tool (many facets of the didactic triangle)
- Self similarity (dichotomies: knowledge, hierarchy,...)
- Qualitative based reasoning with an interaction understanding in mind instead of causal chains

- pKiTE: pedagogical Knowledge in Teacher Education
- GPK as one framing theoretical and practical core knowledge for teachers in the field of formal education (cf. Shulman,...)
- As an complementary approach to the indicator driven quantitative OECD approach
- Hypothesis: school observations show that the current practical way of handling GPK associated challenges (diversity, societal developments) is not fully covered by quantitative indicator based approaches.  
Therefore: reconstructive approach  
reconstruct the many facets of pedagogical knowledge in the classroom
- Data collection: Interviews, observations
- Data analysis: computer supported (MAXQDA), grounded, hierarchical, structural  
spanning the continuum rather than comparative
- Results: dynamical matrix of pKiTE and school

## Research Group Teacher Education

*Institute of Teacher Education and School Research*

### Home

The Institute of Teacher Education and School Research (ILS, School of Education), University of Innsbruck is one of Austria's pivotal scientific based faculties of teacher education which fosters a high standard of professionalism. ILS has extensive experience and a long standing reputation in school development, cooperation with regional and international schools and wide-ranging knowledge about empirical methods.

The Teacher Education Research Group (TERG) at the ILS currently focuses on initial teacher education (ITE) and induction into the profession (first years of teaching). A distinctive feature of our approach is that we derive all research on teaching and teacher education from the learning process. The group is comprised of UIBK staff, external and associated academics and PhD students. While TERG is engaged in

New webpage from march on ...!!!

# I. Introduction – What we know/key influences

**Shulman 1986**

(comprehensive  
model -  
professionalism

**Bloemeke et al.  
2009**

central component  
of teacher  
knowlegde

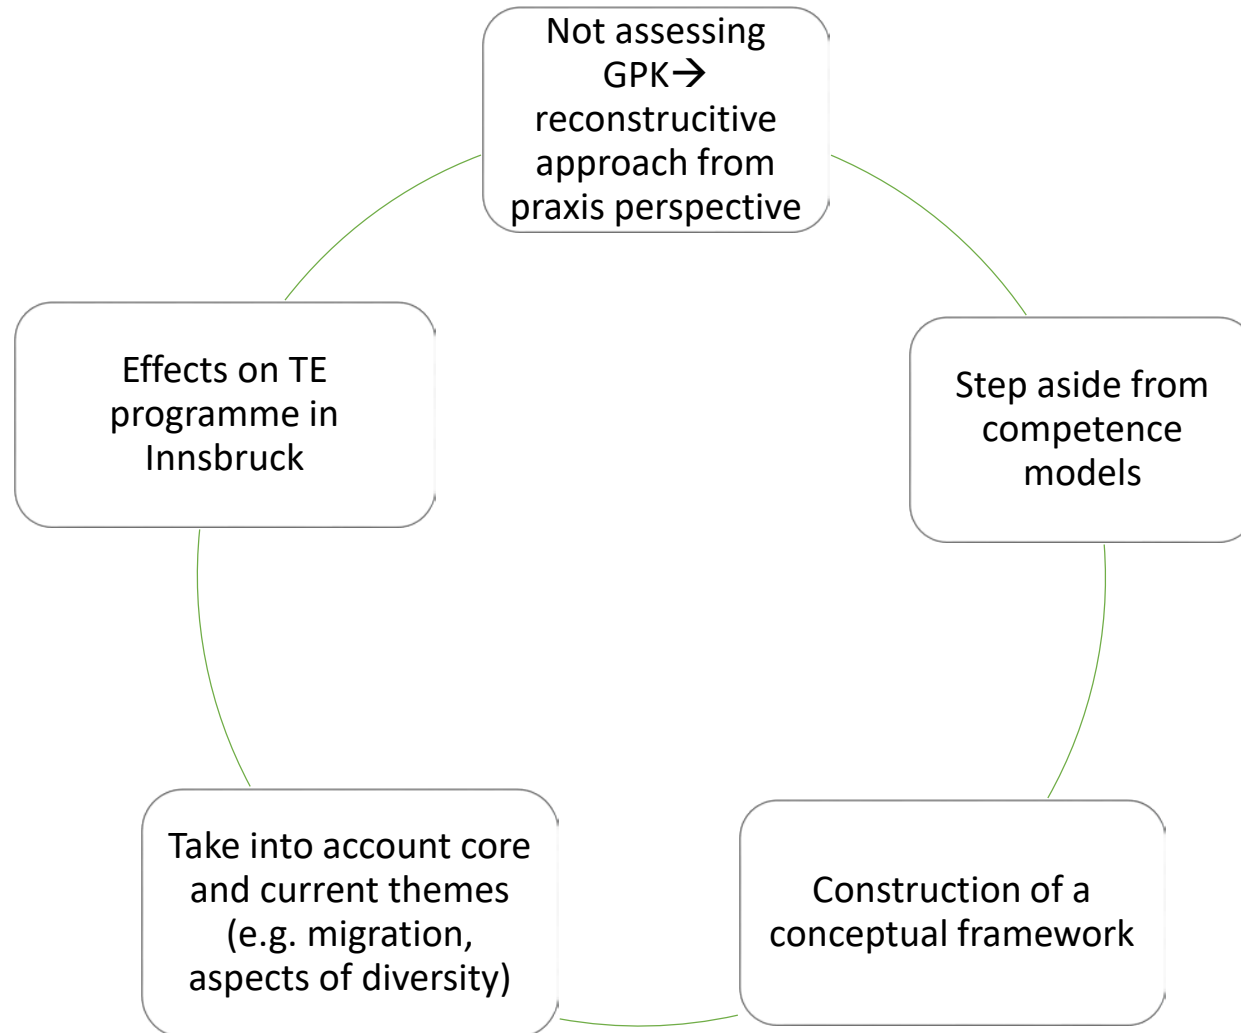

**Voss (2011)/König  
(2013) et al.**

operationalised and  
measured

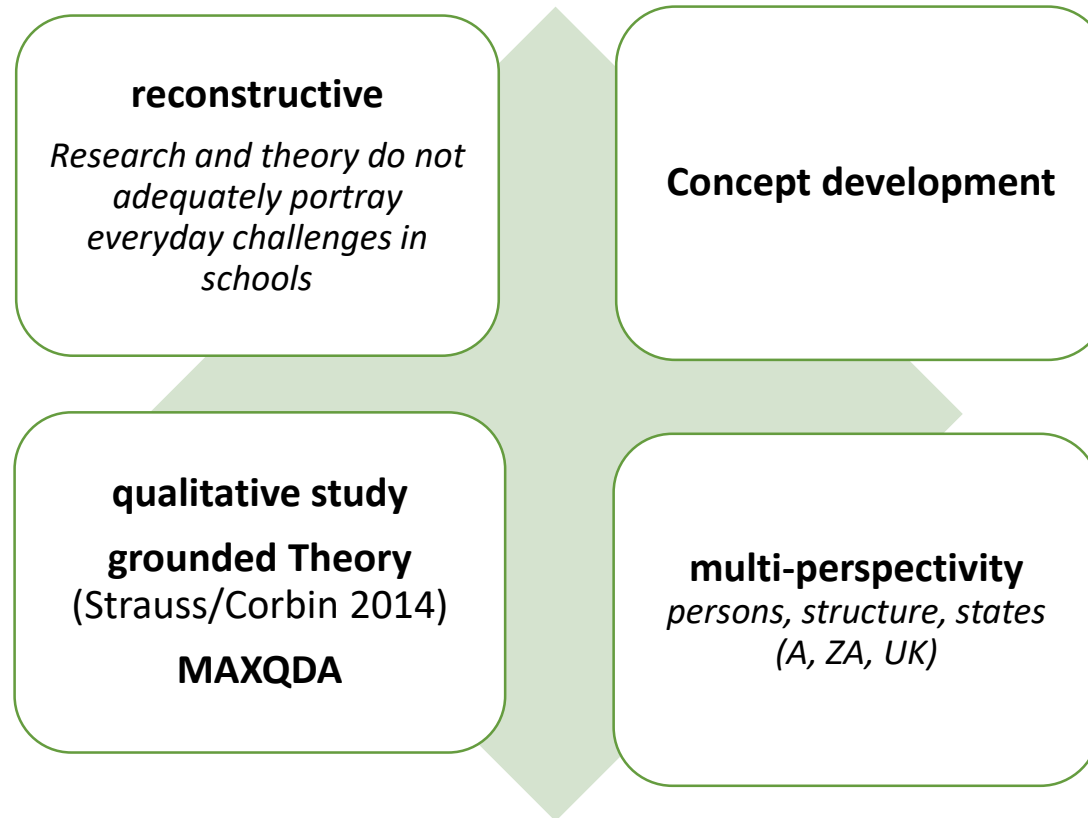

**Internationale  
Studien**

competence &  
benchmarking

# I. Introduction – Research aims

## II. Methodological approach

„We need standards [...] to make our schools work well in solving the myriad tasks they face. But [...] standards alone will not work. We need a surer sense of what to teach to whom and how to go about teaching it in such a way that it will make those taught more effective, less alienated, and better human beings.“ Bruner, J. (1996)

## II. Methodological approach – Austrian Sample

Instruments	Sample
Interviews - <i>Headmasters</i> - <i>School inspector</i> - <i>Teachers</i>	n= 26
Observations	n=9

### School types:

- primary school (age 6-10) n= 8 (~ 31%)
- lower secondary school (age 11-14) n= 7 (~ 27%)
- upper secondary school (age 15-18/19) n= 11 (~ 42%)

### Sex:

- Female n= 17 (~ 65%)
- Male n= 9 (~ 35%)

### Years in service:

- 2 – 40 +

### School types:

- primary school (age 6-10) n= 3 (~ 33%)
- lower secondary school (age 11-14) n= 3 (~ 33%)
- upper secondary school (age 15-18/19) n= 3 (~ 33%)

### Sex:

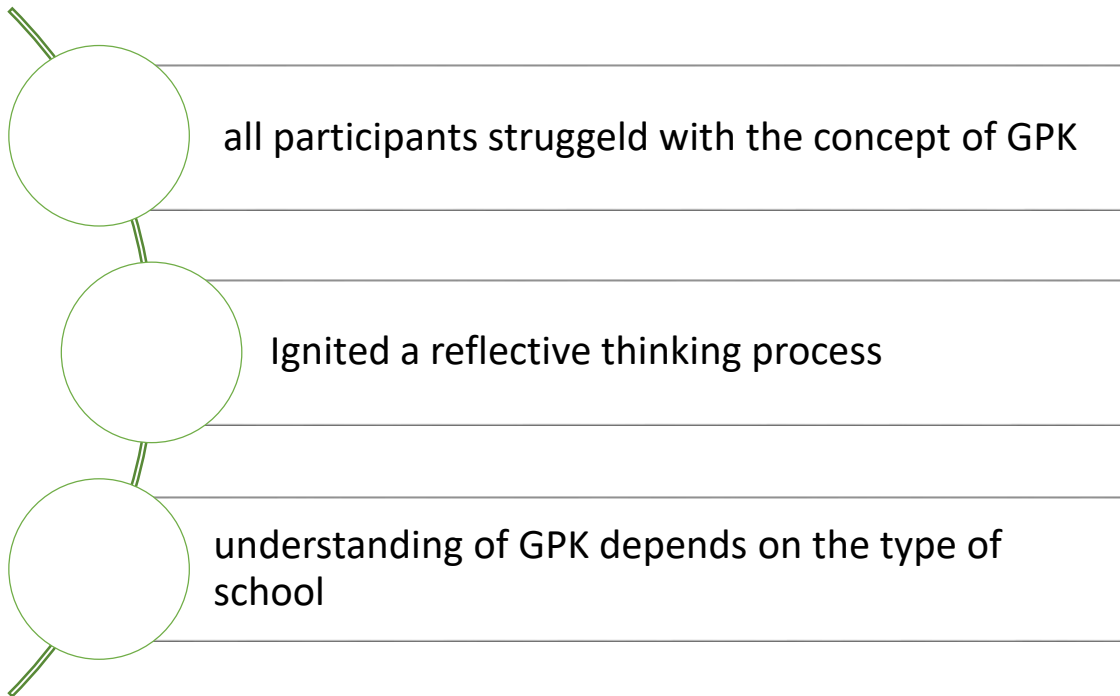

- Female n= 6 (~ 75%)
- Male n= 3 (~ 25%)

### Years in service:

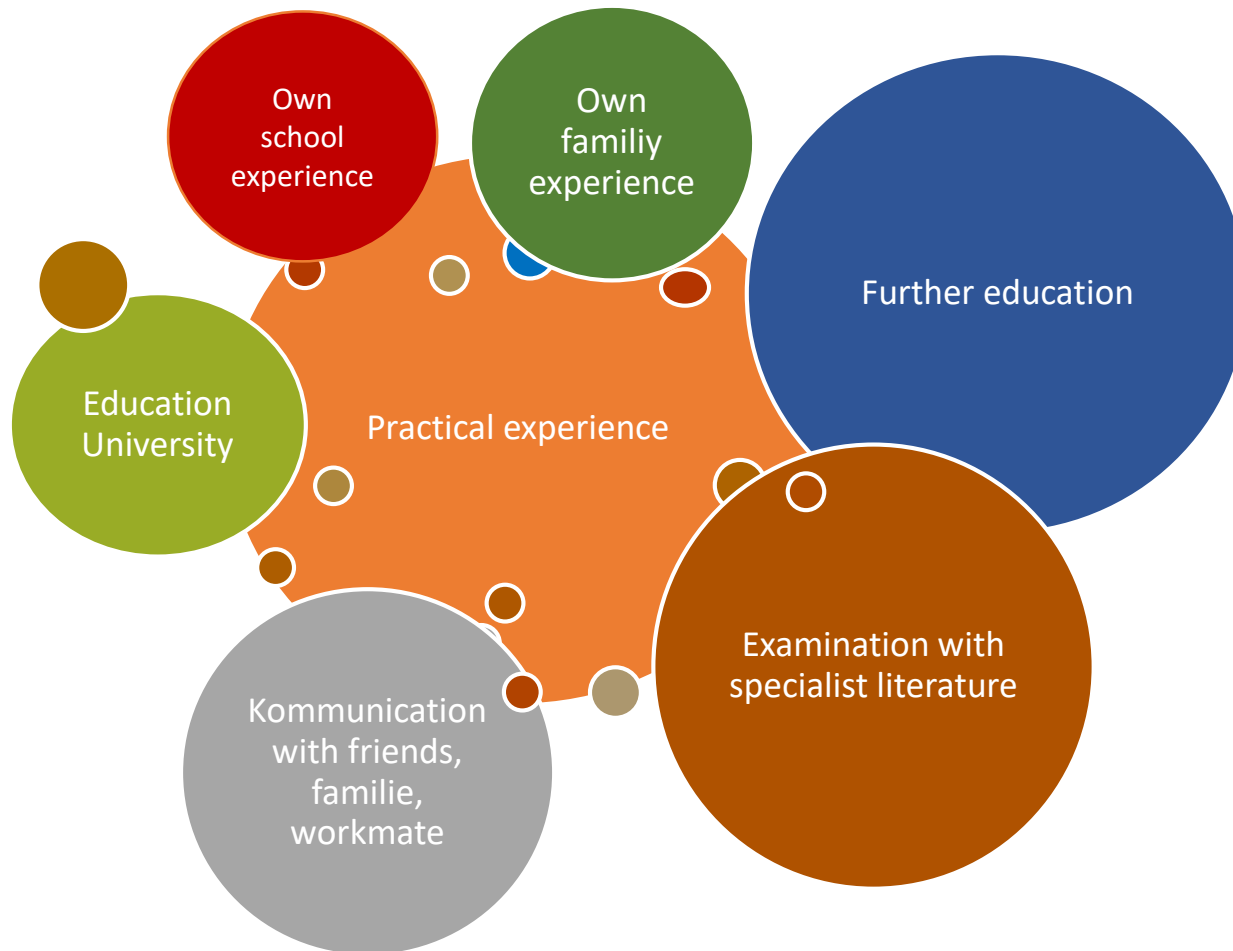

- 2 – 40 +

### III. Findings & Modell

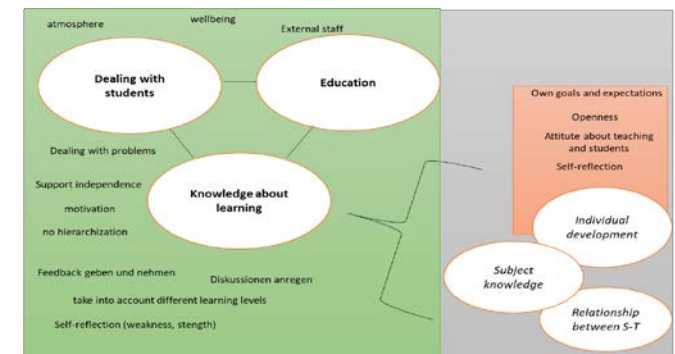

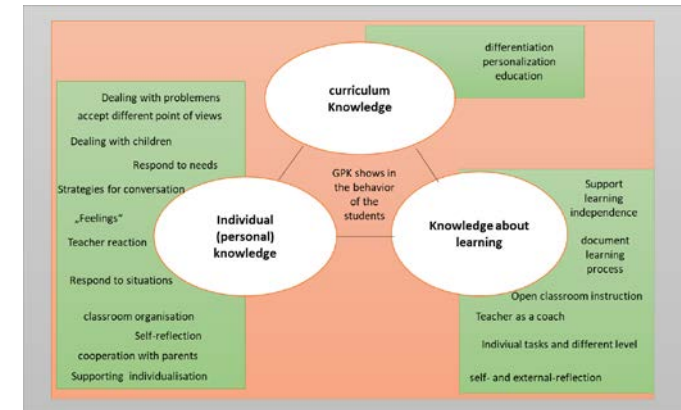

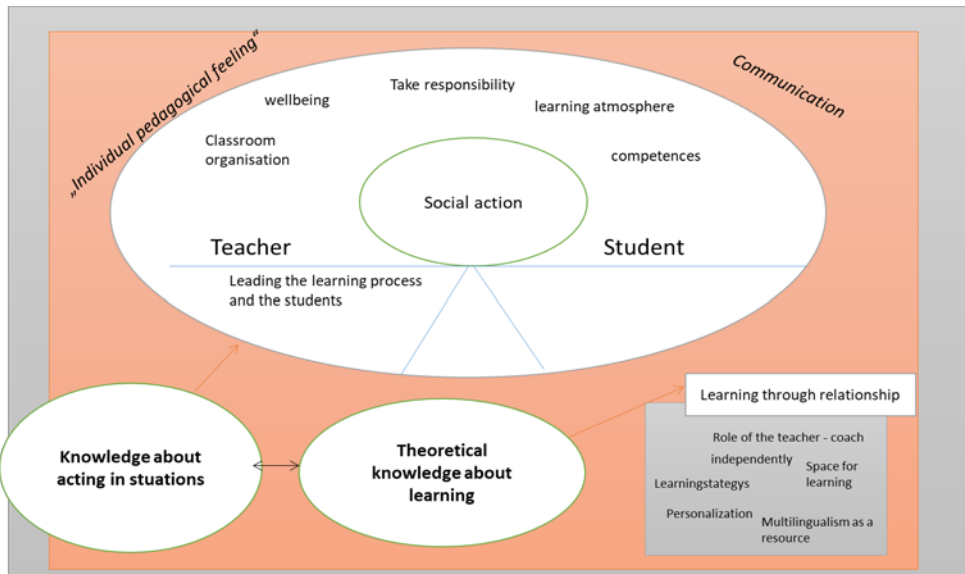

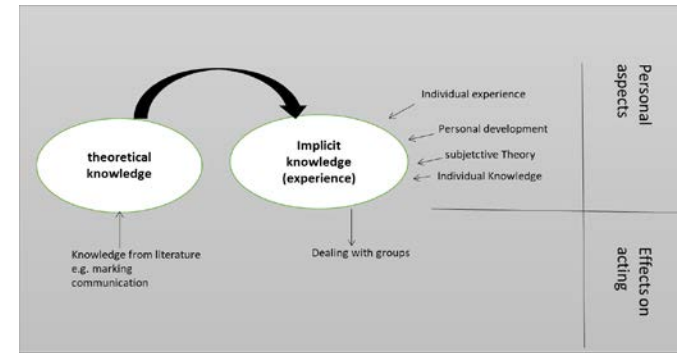

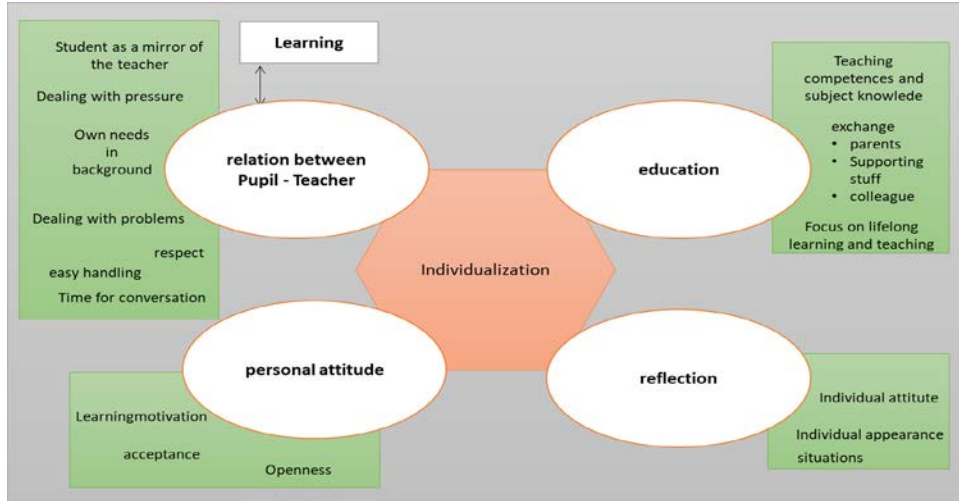

#### - Fundamental insights from the interviews

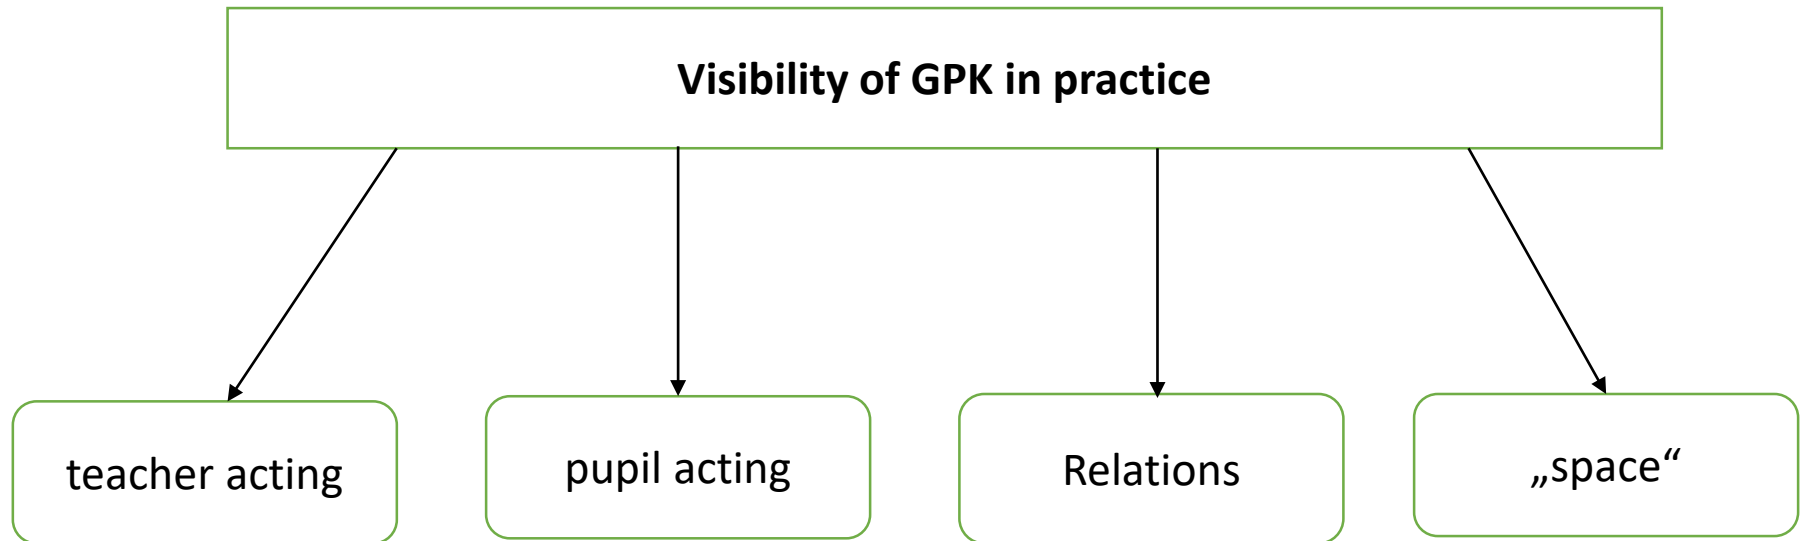

### III. Findings & Modell - acquisition of GPK

# III. Findings & Modell – Individual mental concepts

### III. Findings & Modell – Observations

- differences between their individual cognitive concepts of GPK and their acting in classroom
- implicit knowledge – full of resources
- different perception

**relations**

- people
- content
- objects

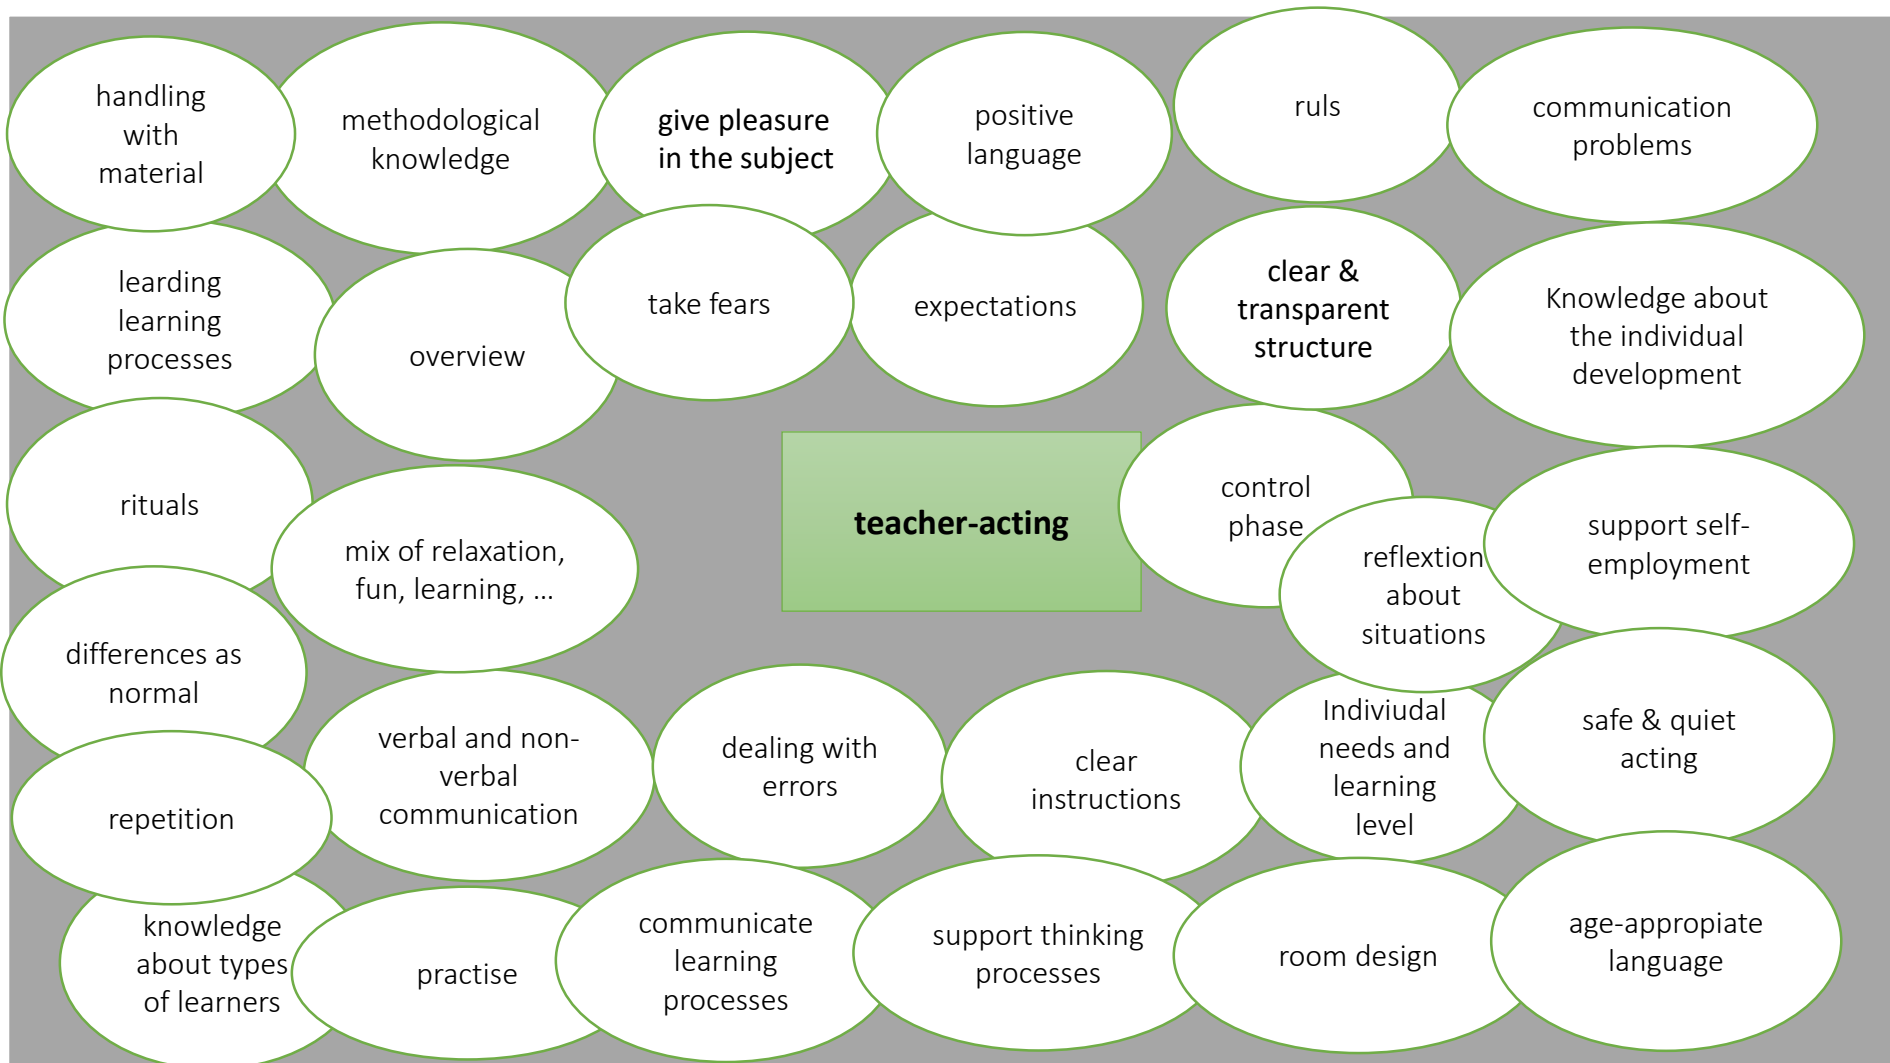

**acting**

- pupils
- teachersd

**pedagogical space**

Relational acting in the pedagogical space

### III. Findings & Modell – individual concepts „teachers -acting“ – one example „observation analysis cluster (intrapersonal)“

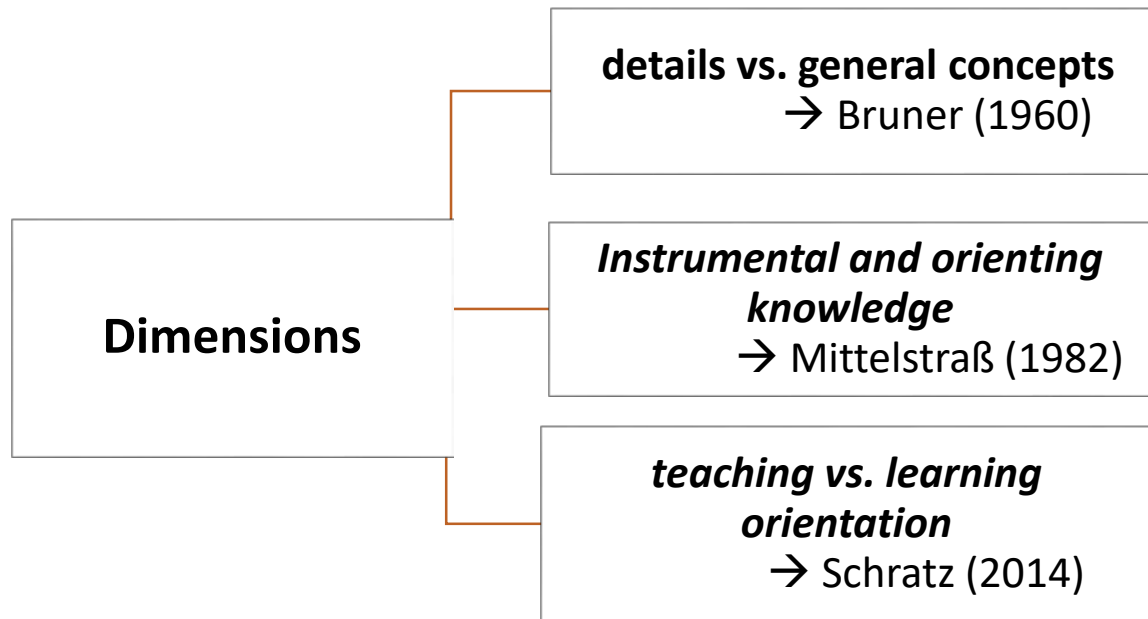

# III. Findings & Modell – Matrix of pKITE

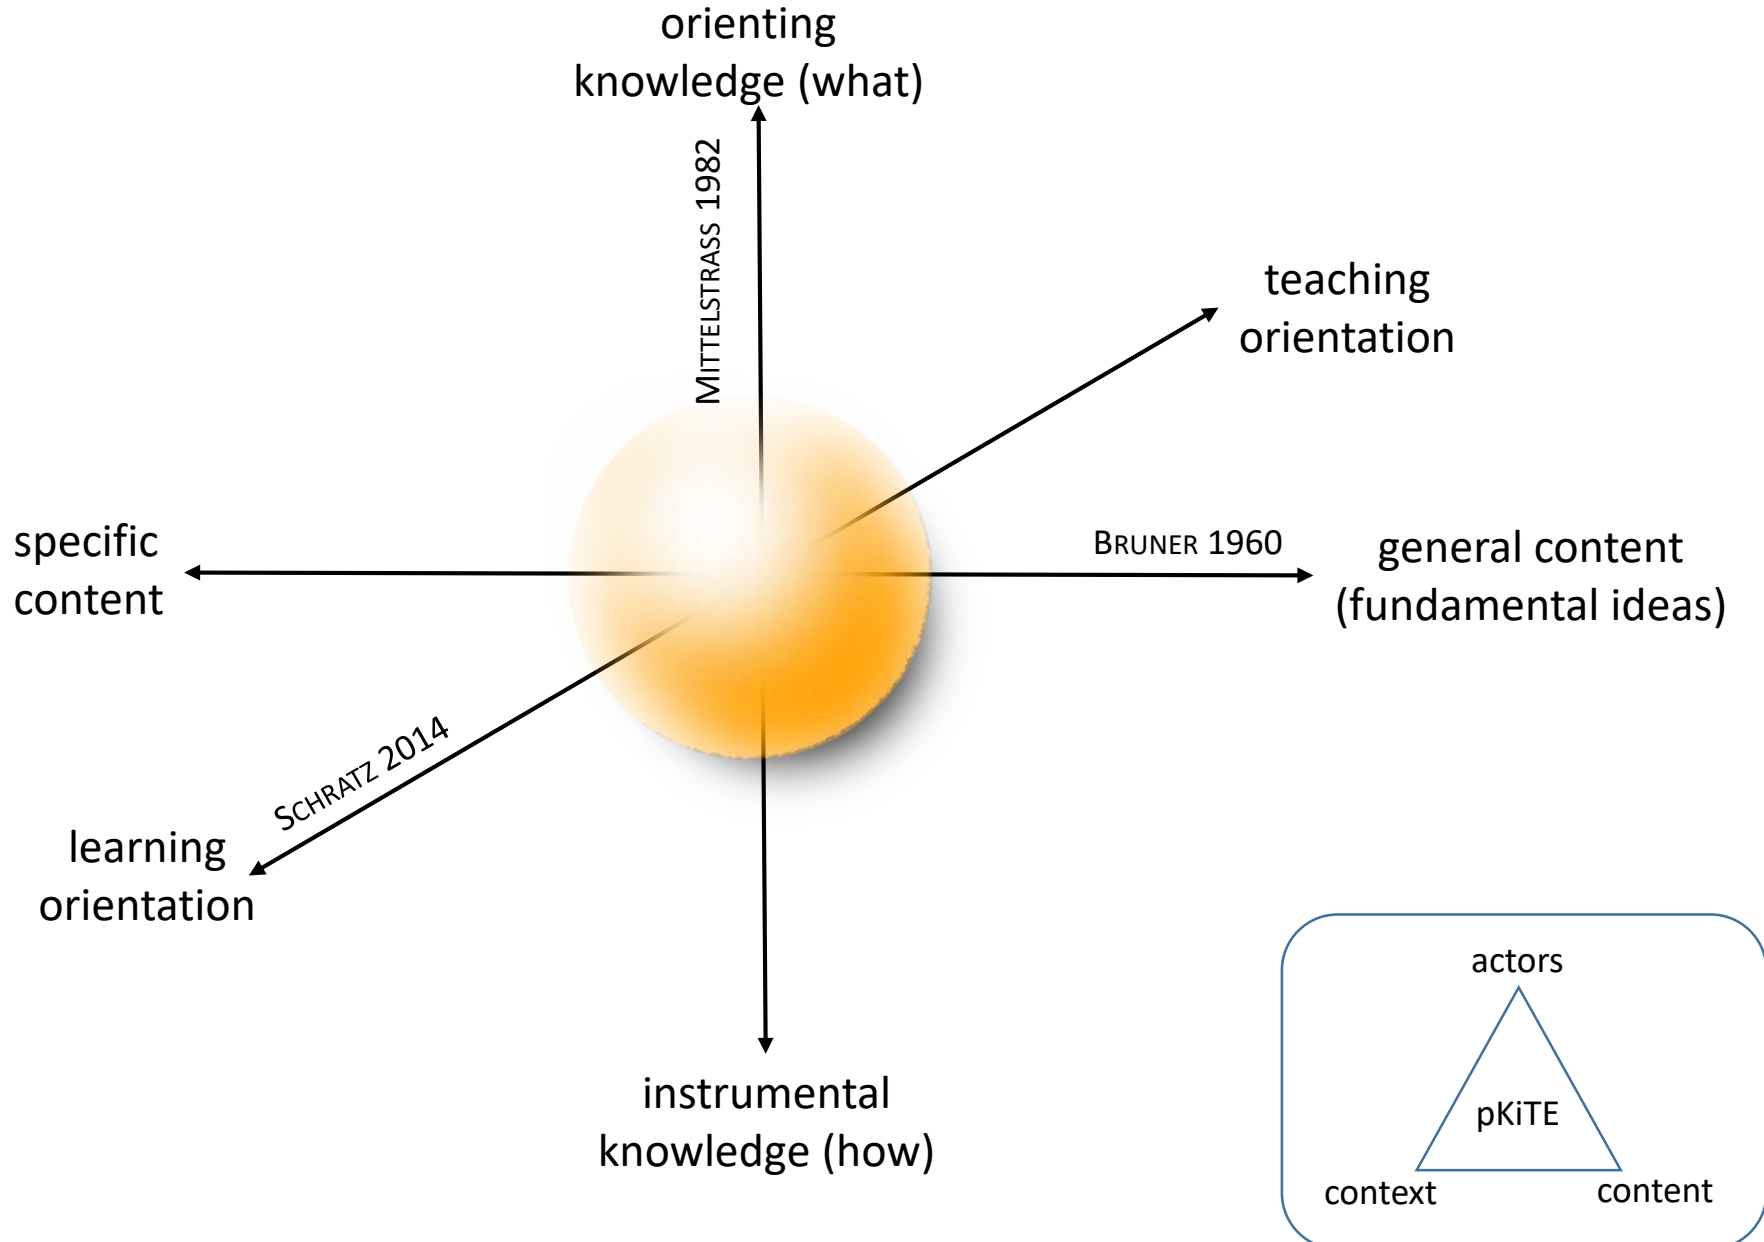

<p><b>Diversity</b></p> <p>diversity, dealing with difference, additional support needs/learning difficulties</p>	<p><b>Communication</b></p> <p>feedback, role of language in communication, communication strategies</p>	<p><b>Rituals</b></p>	<p>...</p>	<p><b>Social Dimensions</b></p> <p>social relations, cooperation, relationships, educate</p>
<p><b>Educational psychology</b></p> <p>psychology of learning, motivation, diagnostics</p>	<p><b>General didactics</b></p> <p>teaching &amp; learning</p>	<p><b>Classroom Management</b></p> <p>leading classrooms, implementation of curriculum, ...</p>	<p><b>Societal Values</b></p> <p>tolerance, acceptance, diversity, on 3 layers (society, school, individual)</p>	<p><b>Reflection</b></p> <p>professional reflection (teaching situations, behaviour, interaction, self reflection...)</p>
<p>...</p>	<p><b>(professional) intuition</b></p> <p>based on professional experience, as argument for</p>	<p><b>System knowledge</b></p> <p>politics, broader perspective, developments</p>	<p>....</p>	<p><b>Classroom atmosphere</b></p>

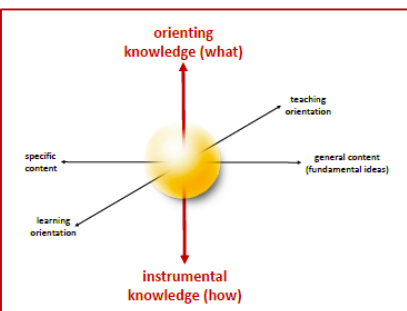

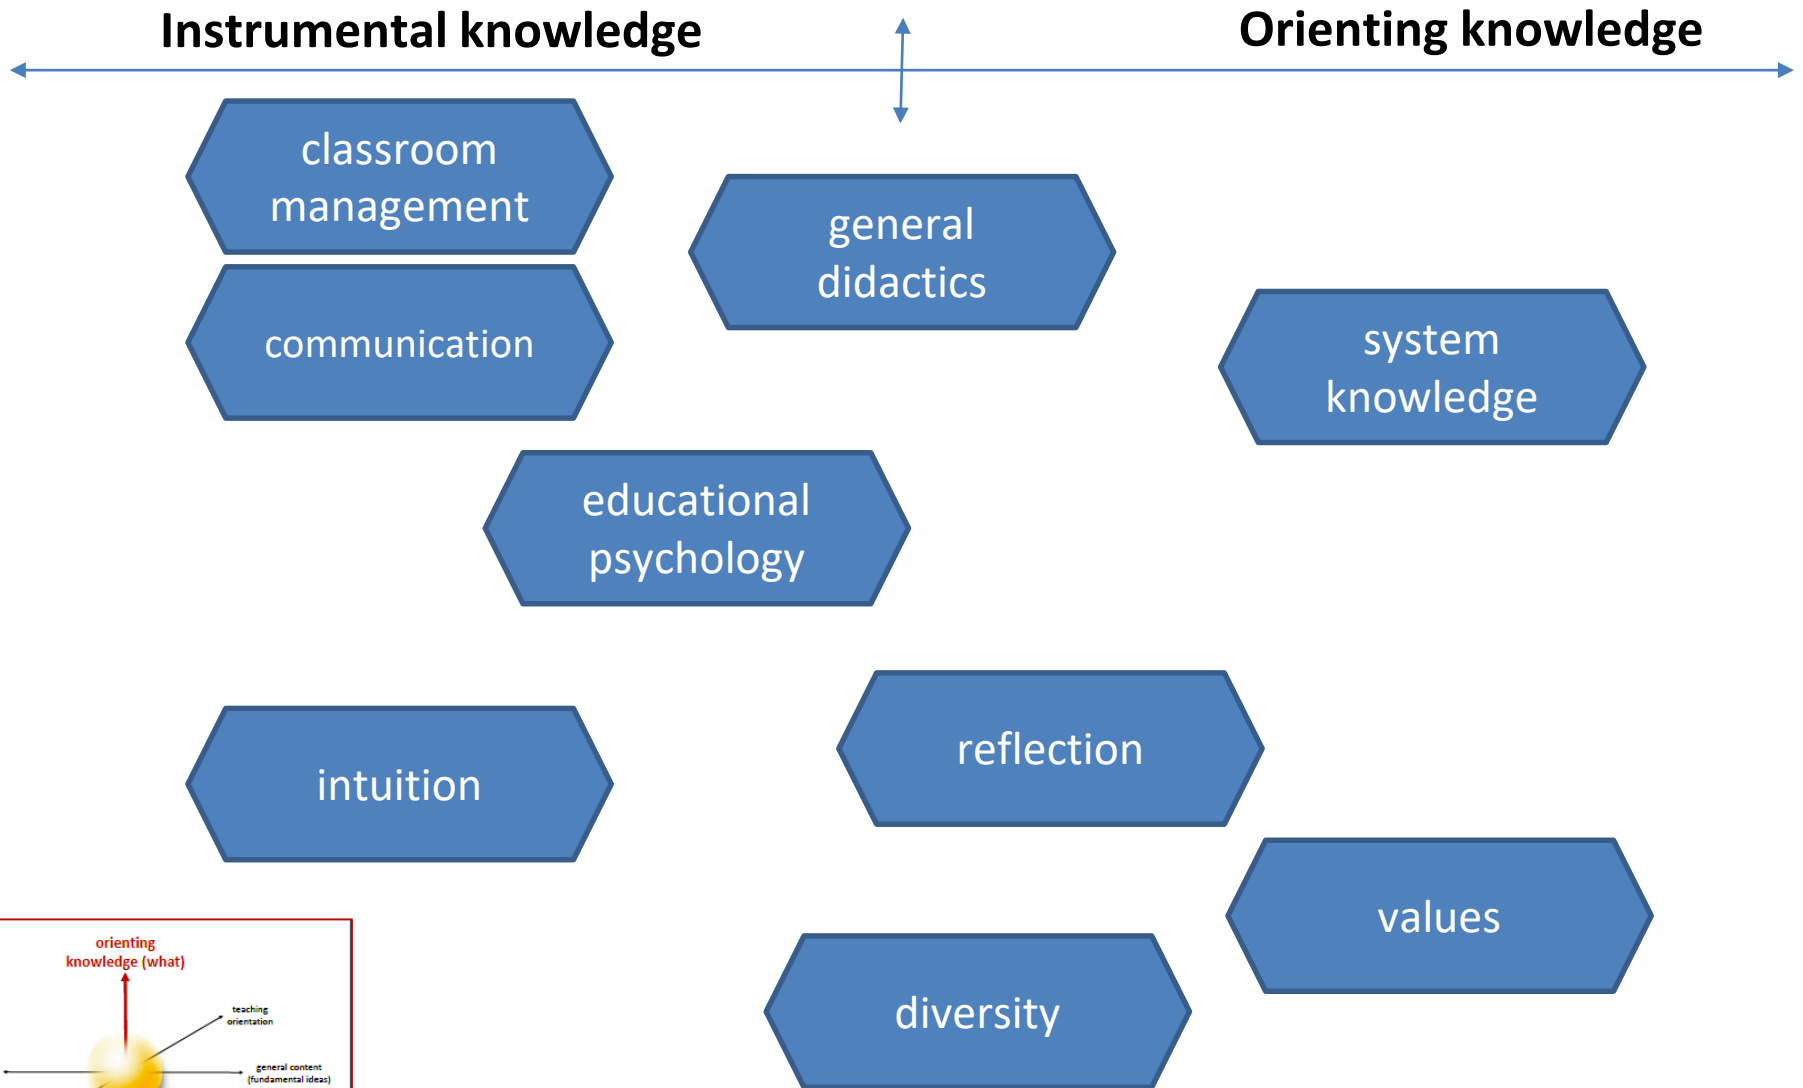

### III. Findings & Modell – Dimensions

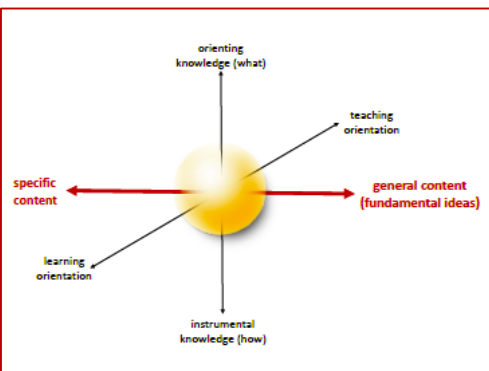

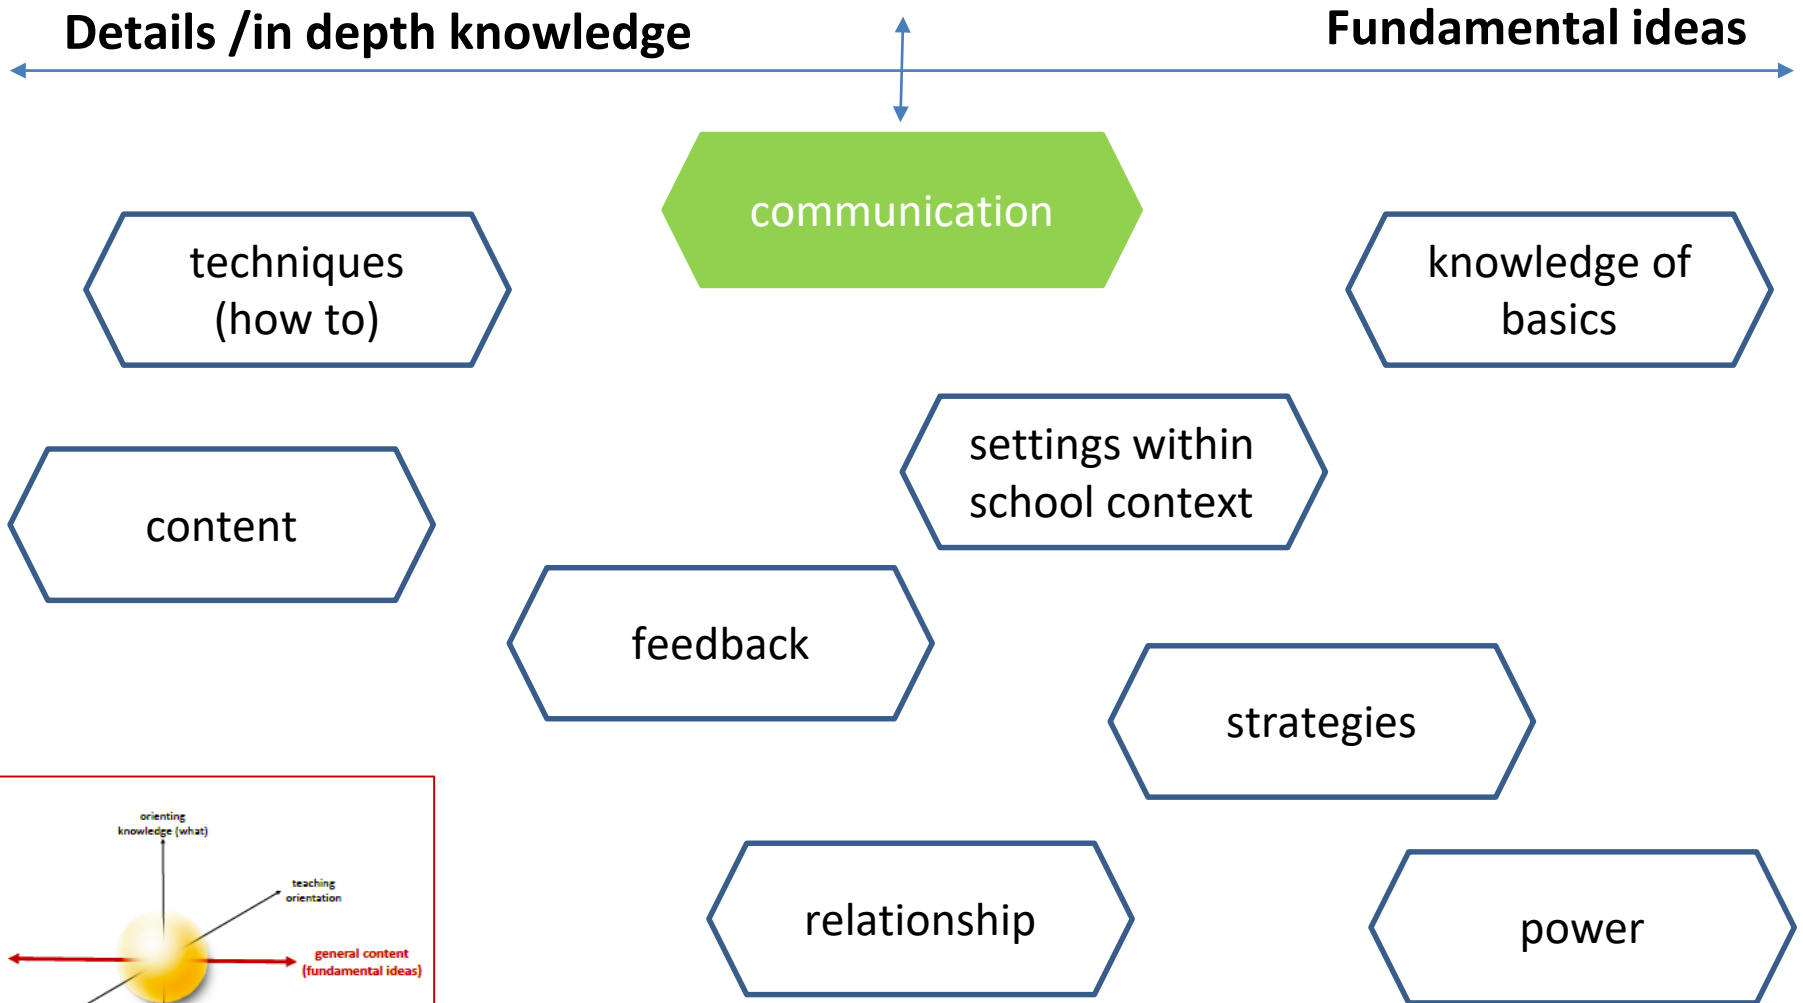

# III. Findings & Modell – Dimensions

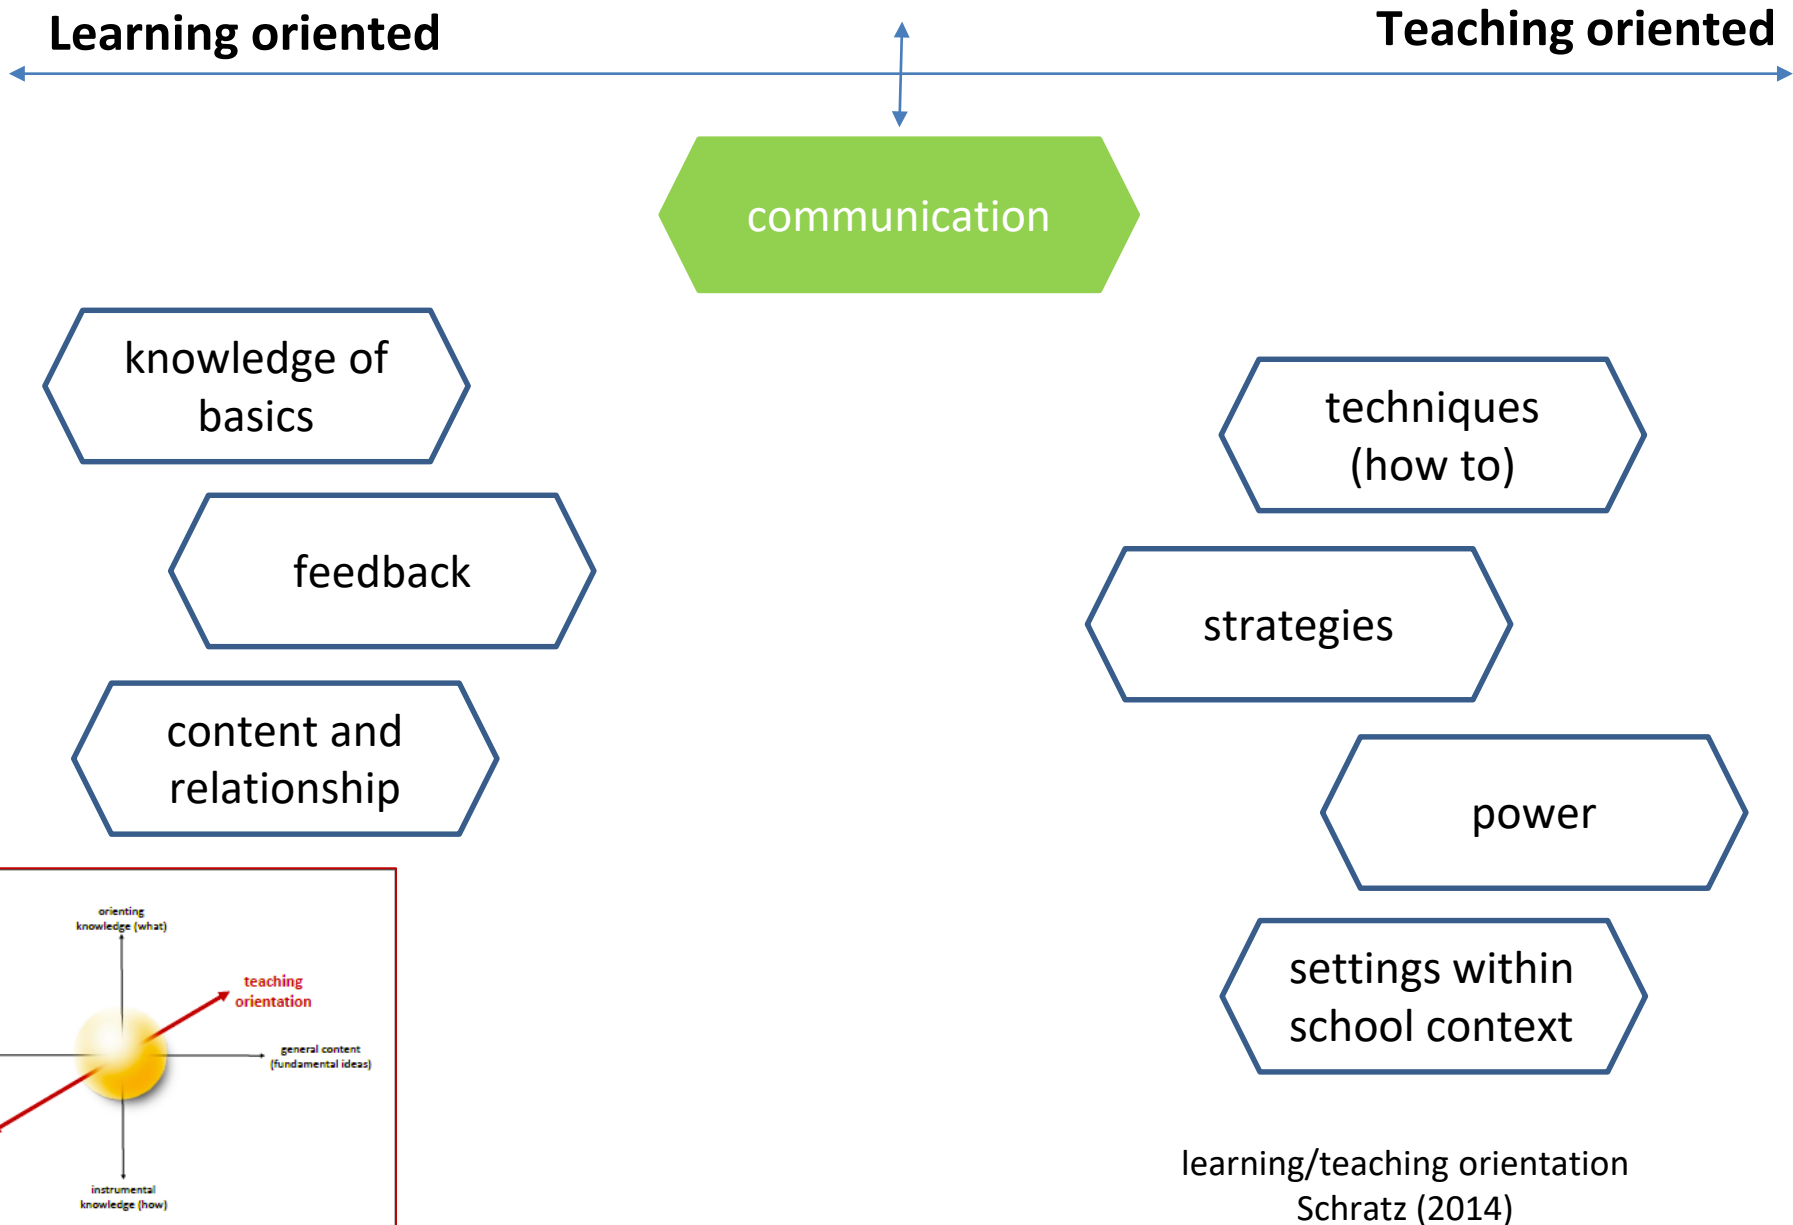

Funcion of knowledge  
Mittelstraß (1982)

Fundamental Ideas  
Bruner (1960), Schweiger (2006)

## IV. Future

- further development of model
- focus on aspects of diversity in pKiTE
- extension of sample (UK)
- collaboration with University of Pretoria (diversity)
- inform our own TE-programme, dissemination
- „New narratives of GPK“
