Master Program in Computer Science

SEMESTER 1

- Current Topics in Computer Science
- Base Elective Module (Selection EM 1-6)
- Base Elective Module (Selection EM 1-6)
- Base Elective Module (Selection EM 1-6)

SEMESTER 2+3

- Specialization Logic and Learning (EM 7-9)
- Specialization Secure and Distributed Computing (EM 10-12)
- Specialization Perception, Interaction and Robotics (EM 13-15)
- Individual Elective Module (Selection EM 7-18)

SEMESTER 4

- Interdisciplinary Skills
- Individual Choice of Specialisation
- Preparation of Master Thesis
- Master Thesis
- Defense of Master Thesis
