

PROGRAM OVERVIEW

Fudan University International Summer Session 2016 (JULY 4 – JULY 29) will provide a 4-week course study and cultural experience to international students from all around the world. Students will have the opportunity to get to know China, experience Shanghai and be part of Fudan community. Fudan University students will also have the chance to participate in the program and communicate with international students. This program will help you achieve multicultural understanding, establish a global vision, and get connected with peers from around the world.

Fudan University International Summer Session 2016 offers a series of content courses and Chinese language courses as well as historical and cultural visits. The content courses will cover a range of topics in Chinese Society and Politics, Chinese History and Culture, and Chinese Business and Economy. Each content course is designed as a weekly 9 academic-hour course. Students can choose one or two content courses and Chinese language course is optional. After a successful completion of the course study, students will be awarded a program certificate and an official transcript from Fudan University. Students who wish to transfer Fudan International Summer Session credit back to their home institutions are advised to consult in advance with the appropriate academic authorities at the institutions.

You will find Fudan and Shanghai wonderful places to learn and grow during the summer. Our faculty, staff and student counselors all look forward to welcoming you to the Pearl of the Orient.

Session Duration:

Registration and Opening: July 1-3, 2016

Course and Exam: July 4 – 29, 2016.

Inquiries and Admission:

International Summer Session, Fudan University

Tel: 86-21-55664890

Fax: 86-21-55664509

Email: iss@fudan.edu.cn

Website: <http://iss.fudan.edu.cn/>

Mailing Address:

Room 408, School of Economics, Fudan University, No. 600, Guoquan Road,
Yangpu District, , Shanghai 200433, China

Application Deadline: May 15, 2015

Tuition: 11,000RMB

Tuition-waiver students from partner universities:

no tuition fee and application fee required

Due to budget and fund requirement, Fudan sets up to 75 positions for tuition waiver exchange students, among which 30 extra scholarship (free housing and compulsory medical insurance) for passport holders from nations in North America Zone. These positions are offered upon a first-nominate-first-served basis.

Self-support students from partner universities:

Application Fee: RMB 400. Tuition: RMB 9,900.

Estimated local cost fee

Estimated local cost fee of meals and daily public transportation will be RMB 4,000.

Nomination:

All students' information (name, email address, country of passport, passport number, tuition-waiver/self-support) should be nominated to iss@fudan.edu.cn before deadline.

Application Materials to be uploaded:

1. One regular passport copy (personal information page – passport must be valid at time of study).

2. Graduation certificates or documents proving student status at current university. Certificates or documents in languages other than Chinese or English must be translated and notarized.
 3. Transcripts of academic records. Transcripts in languages other than Chinese or English must be translated and notarized.
 4. One copy of TOEFL iBT (a score of 85 or above)/IELTS (a score of 6.5 or above), or other materials proving a corresponding level of English. Native English-speakers are exempted from the requirement.
- ★ If necessary, university will require applicants to submit extra materials.
 - ★ After you are accepted into the program, please download Application Form (PDF file) on Online
 - ★ If necessary, university will require applicants to submit extra materials.

Application Procedures:

If you are not a Chinese citizen,

1. Log onto <http://iso.fudan.edu.cn>, and enter the Online Application System through E-Application.
2. The online application procedure is as follows:
Submitting application → Paying application fee on Online Application System → Waiting for verification and application result → Application is completed

Program code:

Tuition-waiver application 382254 (for partner university only, need nomination)

Scholarship application 507628 (for partner university and passport holders of North America Zone only, need nomination)

Self-support application 528614

Please take extra care in filling in the application form online. Once you have submitted the application, it will not be possible to change.

If you are a Chinese citizen currently studying at a foreign university, please email us via iss@fudan.edu.cn to apply.

APPLICATION FEE AND MATERIALS ARE NON-RETURNABLE.

2016 Fudan International Summer Session

Course Information:

Module 1: Chinese History and Culture

Introduction to Modern Chinese History

Culture Resources of Cities in China

Introduction to the Chinese Traditional Civilization

Module 2: Global Issues of the 21st Century

Energy and Environment

Materials in Life

Development of Technology and Patent System

Module 3: Chinese Society and Politics

The Chinese Society and Culture

History of Diplomacy in Modern China

Chinese Culture and Business Practices

Political Economy of China

Political Culture and Public Opinion in Contemporary China

Module 4: Chinese Business and Economy

Chinese Financial Markets

Doing Business in China

International Investment Law

Topics in Development Economics

International Trade

Chinese History and Culture

Si Jia

Associate Professor,

History Department, Fudan University

This course introduces you to a series of reforms carried out by different social and political groups in 19th- and early 20th- century China, when the last imperial dynasty was in imminent danger of falling apart. The course also examines the international

relations between China and other major countries during the first half of the 20th century, helping the audience understand the historical significance of events before the eve of revolutionary Republican era, and the discourse of China's modernization after the establishment of New China in 1949.

Instructor:

Prof. Si Jia received her Ph.D. from Department of East Asian Studies, University of Pennsylvania in 2006. She was Lecturer in Department of East Asian Studies, University of Pennsylvania, and Visiting Assistant Professor in St. Joseph's University, Philadelphia during 2006-2007. Research interests include Shanghai modern civil society, the history of publishing, cultural history and the history of reading.

Chinese History and Culture

Culture Resources of Cities in China

Shen Han

Associate Professor,
Department of History, Fudan University

City culture is a unique attraction for the visitors to get special experience and education. This course examines the culture resources of the cities in China and develops a theoretical framework to understand the development of city culture for city destinations. Through 2 days field trip to the main cultural attractions in Shanghai, students are required to analyze the development plans and marketing strategies for these destinations.

Instructor:

Prof. Han Shen received her Ph.D. from China Academy of Social Sciences, Master in Marketing from Nottingham University, UK and Bachelor in Economics from Fudan University. She has been working at the Hong Kong Polytechnic University as a post-doctoral fellow (2006-2008), at the George Washington University (2012) and Pennsylvania State University (2014-2015) as a Visiting Scholar. Dr. Shen has published more than 50 academic papers and 5 books in the research field of city culture development, city tourism, consumer behavior and destination marketing.

Chinese History and Culture

Deng Jie
Lecturer,
School of Marxism, Fudan University

This course is designed to portray some of the diverse achievements and distinctive characteristics of traditional Chinese civilization. It covers the history of China from the earliest time to the 19th century. It examines the main political, social, economic, religious and cultural developments from the formative period in Chinese history, through the unification of China in 221 BC and the subsequent imperial dynasties. The course is a combination of chronological depiction and theme-focused discussion. It covers a great variety of topics ranging from the origins and evolution of a distinctive Chinese political system, the evolution of Confucianism and its role in Chinese history, the arrival and growth of Buddhism, the relation between China and the outside world, to the economic growth in late imperial period and developments in art and literature.

Instructor:

Dr. DENG Jie received his Ph.D. in History from Queen's University in Canada in 2012. He has been offering English-instructed courses at Fudan University (since 2010) as well as at Pepperdine University (since 2012). His research interests include political and social changes in China since 1800, history of Shanghai, and the household registration (hujia) system in PRC.

Chinese Society and Politics

The Chinese Society and Culture

Yu Hai
Professor,
School of Social Development and Public Policy, Fudan University

Hu Anning
Associate Professor,
School of Social Development and Public Policy, Fudan University

This course aims to familiarize students with a number of salient themes and issues in contemporary Chinese society. As China's rapid development is increasingly focusing worldwide attention on the People's Republic, it is crucial to be able to grasp the social, cultural and political underpinnings of China's unique trajectory and present-day situation. In turn, such an understanding requires acquaintance with an array of key notions and conceptual tools that will be methodically introduced and explicated throughout the semester.

Instructor:

Prof. Yu Hai received his MA of Philosophy from Department of Philosophy at Fudan University in 1988. He was invited as Visiting scholar in Yale University and Carleton University (Canada, 1999- 2000) . He has been offering English-instructed courses at Fudan University (since 2005) as well as at University of Hamburg (2006) and University of Iceland(2010). His research Interests include western social theory, urban sociology, Shanghai studies, etc.

Prof. Hu Anning received his PhD in Sociology from Purdue University. His research interests include sociology of culture, religion, education, and research method. His academic research has been published on Social Science Research, Research in Social Stratification and Mobility, Journal for the Scientific Study of Religion, China Quarterly, among others. He has been offering English-instructed courses at Fudan since 2012.

Chinese Society and Politics

Liu Yongtao
Professor,
Center for American Studies, Fudan University

This course is designed to college students with basic historical facts and figures about Chinese diplomacy. It is intended to provide an introductory survey of Chinese diplomacy ranging from 1949 when the People's Republic of China was established to the early 21st century.

The course is devoted to a general overview of Chinese diplomacy from 1949 to the present in chronological way. Taking history metaphorically as a mirror and a text, the course examines major events, clues, and doctrines in China's diplomacy at different phases in this part of the history. The course also examines selectively China's relationships with some actors in order to understand how Chinese foreign policy is performed and evolved empirically.

Instructor:

Prof. Liu Yongtao received his Ph.D in World History, Fudan University. He has been invited as Visiting Scholars in Hong Kong University and University of Minnesota. And he has teaching experience in Korean University and Tecnologico de Monterrey. His research field includes U.S. government and politics, U.S. foreign policy, IR Theories.

Chinese Society and Politics

[SOCI170002.01](#) Chinese Culture and Business Practices

Pan Tianshu
Professor,
Department of Sociology, Fudan University

Zhu Jianfeng
Assistant Professor,
Department of Sociology, Fudan University

With a focus on the cultural dynamics of the Chinese Marketplace, this course addresses a range of topical issues from the implications of globalization for everyday life in the context of unprecedented transformations, the rise of entrepreneurship and consumerism in contemporary China, and the relevance of values and morals for business practices. The key goal of this course is to provide a set of conceptual tools and a new perspective that will hopefully help students better describe and understand the local social world around you. In learning this new perspective, students will develop a critical, even “skeptical” view toward superficial explanations of take-for-granted practices by replacing common sense understandings of interpersonal interactions with an uncommon sense about the links between individual experiences, structural forces and particular marketplaces.

The course instructor will use a variety of pedagogical techniques to students learn course materials, including lecture, video, and ethnographic analysis. Students are

expected to work together as a learning community to explore issues of general interests. Well-documented case studies and business ethnographies will be woven into in-class discussions of these major themes as a way of grounding theory in marketing practices. Course reading is arranged in weekly units around specific thematic issues. Discussions of the case study materials will be accompanied by presentations of the instructor's research on a range of topics related to the application of anthropological, sociological methods of inquiry to business practices in different field settings.

Instructor:

Prof. Pan Tianshu received his PhD in anthropology from Harvard University in 2002. He has taught sociology in Georgetown University and in School of Advanced International Studies(SAIS), Johns Hopkins University. His research field includes Development Anthropology; Medical Anthropology and Medical Humanities; The Anthropology of Business and Technology.

Prof. Zhu Jianfeng received her BA and MA in law in China and PhD in anthropology from University of Minnesota. Her academic interests focus on medical anthropology, science and technology studies, as well as the broader issues of modernity and globalization. She recently published the paper "*Mothering Expectant Mothers: Consumption, Production, and Two Motherhoods in Contemporary China*"(Ethos 38).

Chinese Society and Politics

[SOCI17000 .01 Political Economy of China](#)

Zhang Li
Professor,
Department of Sociology, Fudan University

This course provides a political economy perspective on the rapidly changing economy and society in contemporary China. The course will focus on the discussion how political, economic and social forces shape “socialism with Chinese characteristics”. Students who elect this course are assumed to have basic knowledge of China and Chinese.

Instructor:

Prof. Zhang Li received his education from University of Washington (Ph.D.), the London School of Economics and Political Science (M.Sc.), and Zhongshan (Sun Yat-Sen) University (B.S.), and is currently Professor of the School of Social Development and Public Policy, Fudan University. He taught at The Chinese University of Hong Kong before he joined Fudan University. His research work has appeared widely in many ISI database listed internationally refereed journals such as *The China Quarterly*, *International Journal of Urban and Regional Research*, *Urban Studies*, *International Regional Science Review*, *Regional Studies*, *The China Journal*, *The China Review*, *Geoforum*, *China Economic Review*, *Habitat International*, *Asian Survey*, *Citizenship Studies*, *Cities*, *Post-Communist Economics*, and *The International Journal of Geographical Information Science*.

Political Culture and Public Opinion in Contemporary China

Chinese Society and Politics

Hu Peng

Lecturer

School of International Relations & Public Affairs, Fudan University

After the Reform and Opening Up, Chinese society has become more diversified and China has made great achievements in political development while at the same time facing considerable challenges, ordinary citizens are becoming more and more important in the country's political life. Political culture and public opinion research concerns about how ordinary citizens think about politics, government performance, and specific public policies. This course explores the nature and dynamics of the political culture and public opinion in contemporary China, it is divided into three major parts: definition of political culture and public opinion; theories of political culture and factors that influence public opinion; and how political culture and public opinion affect political behavior and governmental policy. Through this course, students are expected to gain a better understanding of political culture and public opinion in contemporary China.

Instructor:

Dr. Hu Peng received his Ph.D. in Political Science from the Department of Government and Public Administration, Chinese University of Hong Kong, 2015. He has been offering English-instructed courses at Fudan University (since 2015). His research interests include political culture, public opinion, political development, and Chinese politics.

Chinese Business and Economy

[MANA170003.01](#) Chinese financial markets

Zhang Xiaorong
Associate Professor,
School of Business Management, Fudan University

Dynamics in the Chinese financial markets has attracted much international attention. This course aims to provide the international students with an understanding of how the Chinese financial markets originated and developed, what reforms have been done, the Chinese characteristics, and the challenges and difficulties in future reforms. Starting with a comprehensive introduction, the course covers the major financial markets in China, including the central bank and the banking system, the security market and the foreign exchange market. Each market will be an individual topic, for which the instructor will first review the fundamental concepts and theories, explain the history and facts in China, compare the domestic system with that of the international, present examples and cases, and finally talk about the future reforms.

Instructor:

Prof. Zhang Xiaorong received her PhD in School of Management from Fudan University. She was invited as Visiting Scholars in Columbia University and MIT. Her research field includes financial market, funds, corporate finance.

Chinese Business and Economy

[ECON170004.01](#) Doing Business in China

He Xiyou

Associate Professor

School of Economics, Fudan University.

The purpose of this course is to help students understand the dynamics of the business environment and business culture in China, and to help them develop their potential for doing business in China, especially regarding the direct investment and local operation in China. The course will cover: What are special points of the Chinese business environment? How to understand and approach the Chinese business culture? How to formulate entry strategy in China? How to operate local business and expand it in China? How to integrate the Chinese business with the global strategy? The course content will focus on the business environment analysis, investment strategies formulation and business model transformation.

Instructor:

Prof. He Xiyou is associate professor at Fudan University. He received his PhD in International Business & Strategy from Seoul National University (SNU). His research interests include FDI & TNC; Industrial Catch up; E-business; Asian Economy & Business.

Chinese Business and Economy

[LAWS170001.01](#) International Investment Law

Liang Yong
Associate Professor,
School of Law, Fudan University

The objective of the course is to introduce the fundamental system and main principles, particularly the legal systems and the practice related to inbound investment and outbound investment of China after the Reform and Opening Up in 1978, as well as the interactions among foreign investment laws, other domestic laws, and international investment agreements. This course highlights case studies on prominent issues and hot issues of investment practice involving China, focused on investment dispute settlement mechanism, in order that students can achieve "knowing the law", "abiding the law" and "applying the law".

Instructor:

Prof. Liang Yong received her Ph.D. in Law in School of Law, Fudan University. As Visiting Scholars of Fox International Fellowship Program, during Aug, 2007 to Jun. 2008, she visited Yale University. Her research field includes International Investment Law, International Trade Law and the WTO Law.

Chinese Business and Economy

Topics in Development Economics

Liu Yu
Assistant Professor,
School of Economics, Fudan University

This course is designed to portray some of the facts in a broad range of developing countries. It covers several topics in recent development economics literature with a focus on property right, taxation, and corruption in low-income countries. It examines how these institutions evolve with income. It introduces a variety of methodological approaches to address a number of empirical questions, such as what is the value of political connection in Indonesia, does third-party reporting reduce pollution in India, and why some countries have more complicated government hierarchy whereas others do not. The course aims to build up students' critical-thinking skill through reading the most recent empirical development economics literature and participating in class discussion. Students are expected to be able to conduct independent empirical study on their own after the course.

Instructor:

Dr. LIU Yu received his Ph.D. in Economics from Yale University in 2014. He has been offering English-instructed course in Development Economics at Fudan University since March, 2015. His research interests include political economy and development economics.

Chinese Business and Economy

International Trade

Xie Yiqing
Assistant Professor,
School of Economics, Fudan University

The purpose of this course is to help students understand the basics of international trade and the effects of various international economic policies on domestic and world welfare, with an empirical focus on China trade and foreign direct investment. The course will highlight sources of comparative advantage, gains and losses from trade, the impact of trade on economic growth, and effects of trade policy interventions such as tariffs, quotas, voluntary export restraints, and export subsidies. In doing so, it will emphasize both theoretical (mathematical/analytical) models as well as empirical studies of how well those models fit “real world” data. Moreover, the course will frequently compare and contrast alternative theories/conceptions of the nature of international trade and the gains or losses thereof. Understanding the economic intuitions behind the technically demanding models as well as thinking critically about the assumptions behind the theories and how well they fit actual trading economies will be a major focus. I will try to strike a balance between the "extensive" and the "intensive" margins of the course materials: the extensive margin refers to an overview of various topics in the field of international trade, while the intensive margin means technical training and empirical real-life cases in China on selected topics.

Instructor:

Dr. Yiqing Xie received her Ph.D. in Economics from the University of Colorado at Boulder in 2012. She has been teaching Economics including microeconomics, macroeconomics and international economics since 2008 at the University of Colorado at Boulder, the University of North Dakota and Fudan University. Her research interest is international economics and foreign direct investment.

Global Issues of the 21st Century

ENVI170001.01 Energy and Environment

Yang xin

Professor,

Department of Environmental Science and Engineering, Fudan University

Dr. Chen Hong

Department of Environmental Science and Engineering, Fudan University

This is an introductory course that covers the principles of energy, including traditional fossil fuels, heat engines, energy crisis, renewable energy, nuclear energy, energy conservation, air pollution of different energy sources, and the global climate change caused by energy consumption. This course contains the latest information on the core subjects in the field as well as basic concepts, resources, applications and problems of current interest. Students will be exposed to the scientific literatures, scientific presentations and relevant exercises and tasks. By the end of this class, students should have a better understanding of energy usage and its effects on

environment.

Instructor:

Prof. Yang Xin received his PhD degree from the Hong Kong University of Science and Technology. Prior to joining Fudan in 2006, he worked as a research scientist at the Pacific Northwest National Laboratory, USA. He was awarded as “Yangtze River Scholar” by Ministry of Education of China in 2006. Dr. Yang’s research interests include the structure of micro-solvated complex anions and their interface behavior; physical and chemical properties of atmospheric aerosol; urban air quality; atmospheric chemistry and its impact on global climate. He has published over 80 peer review papers.

Dr. Chen Hong received his PhD in Dept. of Chemistry, Xiamen University in 2002, and was Postdoctoral Research Associate in Dept. of Chemistry and Biochemistry, University of Delaware, from Nov. 2003 to Dec. 2005. Dr. Chen's research interests include the new technologies used in the atmospheric aerosol and the solving the problems of the environmental science; the study of physical and chemical properties of atmospheric aerosol; atmospheric chemistry and its impact on global climate. He has published over 20 peer-reviewed SCI papers.

Global Issues of the 21st Century

Materials in Life

Alexander Solovev,
Professor,
Department of Materials Science, Fudan University

Yongfeng Mei
Professor,
Department of Materials Science, Fudan University

Discovery of new materials properties can lead to ultimate success in both of our better understanding of fundamental organization of matter and utilization of novel properties, effects and functions for specific applications. Many properties of modern materials can be changed by varying the size and not chemical compositions of materials, from macro- to micro- to nanoscale. This course introduces students to an interdisciplinary nature of materials, which are divided by size (from macro- to nano), time (past traditional, current advanced: bioinspired, semiconductor, composites; future: nanomaterials, “intelligent”) and properties (mechanical, magnetic, thermal, chemical, optical, acoustic, electronic). In this course students will learn in depth: a combinatorial approach to materials’ design; how materials properties, effects and functions can be integrated; what can we learn from biology; how future smart

materials may look like. Students will develop a designer approach and real-world problem solving skills.

Instructor:

Prof. Alexander A. Solovev earned his PhD with great honors at the Max Planck Institute for Solid State Research in Stuttgart, the Institute for Integrative Nanosciences, and the Leibniz Institute for Solid State and Materials Research in Dresden, Germany. After his PhD, Dr. Solovev continued his postdoctoral appointments in the Chemical Physics group at the Physics Department of TU Munich, in the Micro-, Nano, and Molecular systems group at the Max Planck Institute for Intelligent Systems in Stuttgart and Chemistry Department, University of Toronto. Dr. Solovev's awards include: the DSM Science and Technology Award from Switzerland, a Max Planck Fellowship, the DAAD prize for international scholars, prize from Society for Chemical Engineering and Biotechnology, and holds the Guinness World Record in nanotechnology for the smallest man-made jet engine. His research interests include the multifunctional nanomaterials, microfluidics, energy and man-made micro- and nanomachines.

Prof. Mei Yongfeng received his Ph.D. from Department of Physics and Materials Science, City University of Hong Kong (2005). He worked as a post-doctoral researcher in the Max Planck Institute for Solid State Research (2005-2007) and then led a research group in the Leibniz Institute for Solid State and Materials Research Dresden as a staff scientist (2007-2010). He has been offering English-instructed courses (Advanced Thin Films: Science and Technology) at Fudan University (since 2015). His research interest focuses on the development of novel inorganic nanomembranes and their properties in optics, optoelectronics, flexible electronics and micro-/nanoscale mechanics. He has published more than 140 peer-reviewed journal papers and chaired several international conferences.

Global Issues of the 21st Century

Development of Technology and Patent System

Ji Xin
Lecturer,
Department of Materials Science, Fudan University

This course will enable you to patent practice, like how to apply patents in China, as well as PCT (Patent Cooperation Treaty) patent. The choice between trade secret and patent is another issue for corporation intellectual property protection strategy and it will be discussed. The topics like why some technical scheme will be applied as patents, while others will be protected as trade secrets, how to construct intellectual property fence to obtain maximum benefit will be dealt with. Furthermore, since the issue on how to play the so-called patent games in different countries is of great importance for multi-national corporations, the patent-related legal system will be introduced to help control the legal risk of exports and technical imports.

Instructor:

Dr Ji Xin received his Ph.D. from Department of Materials Science, Fudan University, 2010. His research interests include patent protection, trade secret protection, and intellectual property strategy.

Program Agenda (tentative):

Week	Date	Day	Morning	Afternoon	Evening
	July 1	Fri	Registration	Registration	
	July 2	Sat			
	July 3	Sun	Photo-taking & Placement Test for Chinese Course	Opening Ceremony & Orientation	Welcome Party

Accommodation:

Housing

Foreign Students Dormitory

Fudan Foreign Students Dormitory is constituted by the main building and the supplementary building. The Students' cafeteria and the Gym are behind the Foreign Students Dormitory.

The main building located northwest of Fudan campus is a 23-storey building with totally 728 rooms, 582 single rooms and 146 double rooms respectively. The lobby of the main building includes: reception desk, mini-supermarket, reading area, mail boxes and a 24-hour reception desk service. From the 2nd floor to the 20th floor, each floor is equipped with 2 kitchens at both ends of corridor respectively. The kitchens are equipped with: gas oven, refrigerator, washing machine, gas water heater, and automatic water boiler. All rooms in the main building are equipped with balcony, air-conditioner, private bathroom, telephone, Internet access and cable TV access. Accommodation fee: Double Room RMB 70 per day per person, Single Room RMB 100 per day per person.

The supplementary building is consisted of 9 identical units. All 9 units of supplementary building have altogether 504 single rooms. Each unit is a 7-storey unit. Each floor has two apartments. Each apartment has 4 single rooms, 1 sitting room and 2 bathrooms. Each of the single rooms has balcony, air-conditioner and Internet access. There is a laundry room located in supplementary building. Accommodation fee: Single Room RMB 55 per day per person.
