

New Information April 21 2020

First of all: The most important rule is still to stay at home as much as possible and continue to limit your social contacts!

Currently only five reasons to leave your apartment/house are defined:

- Shopping to provide basic services
- Going out for fresh air and sport activities (alone or with people from a common household/roommate)
- Doctor's visits and appointments
- If your life depends on it and/or you are in danger
- In order to help others

Please, keep a distance of at least one meter at all times and wear a facemask for shopping, on public transport and at doctor's offices.

These rules will remain in effect until at least April 30, 2020!

Planned next steps as of April 21, 2020

April 30:

The general lockdown is set to expire. Further information about what will change will be provided by the government at a later stage.

May 1 (or May 2, since the 1st is a national holiday)

Opening of all shops, malls, and hairdressers in alignment with security measures (facemasks and distance of 1 meter).

May 15:

- Bars and Restaurants may reopen adhering to limited opening hours and keeping to set security measures
- Public offices may reopen
- Slow and step-by-step opening of schools may be commenced
- Places of religious worship (like churches, synagogues, mosques, etc.) may reopen

PLEASE NOTE: all measures and deadlines may change in the event of infection rates going up again.
