

## Current project status

The Erasmus+ project team is still working intensively to achieve its project objectives. The project partners from four different countries continuously exchange information and successively achieve further milestones of the project. The project partners were able to finalize the supranational handbook, which has already been published on the project homepage.

During the last weeks, the "best practice" examples with their respective assignments to selected quality indicators have been optimized and finalized. These are also available in the respective national languages of the project partners (German, Danish, Italian and English). All documents are available on our project homepage.

In addition, we have started to plan the multiplier event, which will take place on 2 September 2019 at the University of Cologne at the Chair of

Economic and Social Pedagogy. Many national and international vocational education and training experts were invited to attend and listen to the reports of the experts within the framework of impulse lectures from the Institute of the German Economy as well as in a World Café. During this event, all participants have been invited to contribute critically with the presented topics through their own experiences.

## Outlook

In the coming weeks, the Good VET team will develop a multilingual online tool in which international education for refugees will have the opportunity to evaluate their initiative according to the indicators developed.

In addition, the work on the final project Report has started and will be finalized by the end of the project period.

Berufsbildungsmaßnahmen für Geflüchtete gestalten

Die Integration von Geflüchteten mit Bleibeperspektive stellt die berufliche Bildung vor Herausforderungen. Im Projekt GoodVET haben vier EU-Länder ihre vielfältigen Erfahrungen zur Integration von Geflüchteten für die Praxis aufbereitet (Details zum Projekt: <http://www.goodvet.uni-koeln.de/>).

Im Rahmen der Veranstaltung erwarten Sie

- die Vorstellung von Qualitätsindikatoren,
- Best-Practice Beispiele,
- ein Online-Analysetool zur Selbsteinschätzung,

die Sie bei der Organisation und Durchführung von Berufsbildungsmaßnahmen unterstützen.

Tauschen Sie sich mit den „Best-Practice“-Referent\*innen und mit uns über Ihre Erfahrungen aus.
