Innsbruck, 20. February 2009

PhD-STUDENT POSITIONS

Starting by now, in the framework of the new research project

"Turbulence in the Edge Region of Magnetized Plasmas"

of the Austrian Science Funds (Fonds zur Förderung der wissenschaftlichen Forschung (FWF)) and of the Association EURATOM-Austrian Academy of Science, the Innsbruck Experimental Plasma Physics Group (IEPPG) at the University of Innsbruck offers one or two PhD student positions for an expected duration of three years. The employment will be for 75% of the usual working hours. The payment will follow the rules of the Austrian Science Funds (FWF).

The work on this subject will also require longer research visits at other European fusion research centres such as Garching near Munich, Greifswald (Mecklenburg-Vorpommern, Germany), Lisbon, Madrid or Prague.

Candidates with experience in experimental plasma physics will be preferred. An excellent mastery of the English language is required.

Please submit your application until 30 March 2009 to Prof. Roman Schrittwieser under the above-mentioned coordinates.

Roman Schrittwieser
