# Students Support

## Buddy System

A group of students with international experience offers a helping hand to incomings especially at the start of their stay. They will help solve problems regarding university or social life, language problems and bureaucracy. This system of student support (buddy system) is organized by the Erasmus Student Network (ESN).

If you are interested in getting an Austrian buddy, please see: <http://innsbruck.esnaustria.org/>

Do contact them as soon as possible then they can send you relevant information prior to your arrival in Innsbruck and, if necessary, even arrange a pick up service.

Erasmus Student Network (ESN) is responsible for incoming students. This network promotes social and personal integration of exchange students from all over the world. The ESN Team is a group of Austrian students which coordinates social and cultural activities and organizes trips, excursions and much more. They also offer help and provide information.
