

## CURRICULUM VITAE

### THOMAS WEISSE

Department for Limnology, Mondsee  
of the University of Innsbruck  
Mondseestrasse 9, A-5310 Mondsee, Austria  
Tel.: + 43-512507-50200  
E-mail: [thomas.weisse@uibk.ac.at](mailto:thomas.weisse@uibk.ac.at)  
Website: [www.uibk.ac.at/limno/personnel/weisse](http://www.uibk.ac.at/limno/personnel/weisse)

Place of Birth: Berlin  
Citizenship: German  
Titles: University Professor, Honorary Professor, PhD (Dr. rer. nat. habil.)

#### Academic qualifications and Employment History

- 1998-present **Senior Scientist, Head of working group Plankton Ecology, and Director** (until October 31<sup>st</sup>, 2013) at the Institute for Limnology of the Austrian Academy of Sciences (respectively the Research Institute for Limnology, Mondsee, of the University of Innsbruck, effective 1 September 2012) Austria and **Honorary Professor for Limnology** at the University of Salzburg, Austria
- 1995-1998 Senior scientist (**Associate Professor** level, C3) and head of working group Microbial Ecology at the Max-Planck-Institute for Limnology, Plön, Germany
- 1995 University **lecturer** (Privatdozent, **Venia legendi** for **Limnology**) at the Christian-Albrechts-University at Kiel
- 1993-94 (18 months) **Vising Scientist** at the West Vancouver Laboratory, Fisheries & Oceans Canada (invited by Dr. J. G. Stockner; supported by the German Research Council, DFG)
- 1992 Habilitation, University **lecturer** (Privatdozent, **Venia legendi** for **Hydrobiology**) at Konstanz. Teaching at the Universities of Konstanz and Freiburg
- 1988-1993 **Assistant Professor** (Wissenschaftlicher Assistent, C1) at the Limnological Institute Konstanz
- 1986-88 **Research Scientist** at the Limnological Institute Konstanz
- 1985 **Ph.D.** in Biology/Biological Oceanography with distinction (summa cum laude) at the Institute for Marine Research/University of Kiel  
*Thesis: Biomass and metabolic activity of micro- and mesozooplankton in the Baltic Sea (in German)*
- 1980-85 **Research Associate** at the Institute for Marine Research Kiel and the Biological Station Helgoland at List/Isle of Sylt
- 1982 **M.Sc.** (Diploma) with distinction in Biology/Biological Oceanography, University of Kiel, *Thesis: Impacts of a 'Phaeocystis pouchetii' bloom on the dominant copepod species of the Wadden Sea area off Sylt*
- 1978 **B.Sc.**, Free-University of Berlin

### Main areas of research

Fundamental and applied Limnology, Functional Ecology of Freshwater Plankton, Aquatic Food Webs, Protist Ecology, Taxonomy, and Ecophysiology, Optical and Electronic Plankton Counting (Image analysis, Particle counting, Flow cytometry, FlowCAM)

### Teaching and Theses supervised

Field and laboratory courses, lecture courses and seminars in Limnology, Biological Oceanography and Protozoology at the German Universities in Kiel, Konstanz, Freiburg, and the Austrian Universities in Salzburg and Innsbruck

15 Masters (Diploma) and 11 Doctorate (PhD) students supervised at the universities in Konstanz (D), Kiel (D), Salzburg (A), and Innsbruck (A)

### Most important invitations to present at academic conferences

- Weisse, T.: Functional ecology and diversity of planktonic protists. 15th International Congress of Protistology, Prague, Czech Republic, July 30-August 4, 2017 (plenary).
- Weisse, T.: Functional diversity of aquatic ciliates. 5<sup>th</sup> Workshop of the International Research Coordination Network for Ciliate Biodiversity (IRCN-BC), Guam, July 26-29, 2016 (keynote).
- Weisse, T.: Functional ecology of aquatic protists – key issues and open questions. VII ECOP/ ISOP Congress, Seville, Spain, Sept 5-10, 2015 (invited symposium organizer and speaker)
- Weisse, T.: Community ecology of rare ciliates. 14<sup>th</sup> International Congress of Protistology (ICOP XIV), Vancouver, Canada, July 28-August 2, 2013 (symposium speaker).
- Weisse, T.: Population dynamics of microorganisms - Adaptation and tolerance to physical conditions in the (freshwater) environment. New Directions for Investigating Biodiversity of Ciliates. Workshop presented by the International Research Coordination Network for Biodiversity of Ciliates, National Evolutionary Synthesis Center and North Carolina Central University, Durham, NC, USA, September 19-22, 2012 (keynote).
- Weisse, T.: Sex, cysts, and local adaptation in freshwater protists. VIII. International Chrysophyte Symposium (ICS), Prague, Czech Republic, August 12-17, 2012 (keynote).
- Weisse, T.: Water supply today and in the future. Joint International Conference on ‘Technologically modified environment –environmentally modified technology’. National Academy of Sciences, National Academy of Engineering, Institute of Medicine, German Academy of Sciences Leopoldina, National Academy of Sciences, Karlsruhe Institute of Technology, Karlsruhe, Germany, October 12-15, 2009 (keynote).
- Weisse, T.: Biodiversity and ecology of freshwater ciliates. XX<sup>th</sup> International Congress of Zoology, Paris, France, August 26-29, 2008 (symposium speaker).
- Weisse, T.: Significance of pH as environmental factor limiting the distribution of freshwater protists. V European Congress of Protistology and XI European Conference on Ciliate Biology, St. Petersburg (Russia), 23.-27.7.2007 (keynote).
- Weisse, T.: Biodiversity of freshwater microorganisms. 4<sup>th</sup> Symposium for European Freshwater Sciences (SEFS 4), Krakow, Poland, August 22-26, 2005 (plenary).

- Total oral and poster presentations: 180
- Invited: 70
- Keynote presentations: 15 (12 at international meetings)

### Most important academic prizes/awards

- Recipient of a grant for the dissertation by the Studienstiftung des Deutschen Volkes (1983-1985)
- Winner of the Prize for the best dissertation of the year of the Christian-Albrechts-University Kiel (1986)
- Honorary Professor for Limnology at the University of Salzburg, Austria (1998)
- Elected Member (2004) and Vice Chairman (2008-2012) of the Scientific Advisory Board of the Leibniz-Institute of Freshwater Ecology and Inland Fisheries, Berlin
- Vicepresident (2005-2008) and President (2008-2011) of the German Society for Protozoology
- Elected Member of the Scientific Advisory Board of the WasserCluster Lunz (2007-2012)
- Appointed member of the Strategic Planning Committee of the International Society of Protistologists (ISOP) and appointed member of the International Committee ISOP (since 2010)
- University Professor (2017)

### Most important peer review activities, editorships and memberships in academic organisations

- Editor-in-Chief of the *European Journal of Protistology* (since 2008)
- Associate Editor of *Journal of Plankton Research* (2002-2003) and *Journal of Eukaryotic Microbiology* (2006-2009)
- Editorial Board member of *Journal of Plankton Research* (1998-2008), *Aquatic Ecosystem Health and Management Soc.* (2002-2006), *LIMNOLOGICA* (since 2004), *Freshwater Biology* (since 2009)
- Ad hoc reviewer for >60 scholarly journals: *Acta Protozoologica*; *Advances in Limnology*; *Annales de Limnologie*; *Applied and Environmental Microbiology*; *Aquatic Ecology*; *Aquatic Ecosystem Health and Management Soc.*; *Aquatic Living Resources*; *Aquatic Microbial Ecology*; *Aquatic Sciences*; *Biological Invasions*; *Biology Letters*; *Fundamental and Applied Limnology* (formerly *Arch. Hydrobiol.*); *Canadian Journal of Fisheries and Aquatic Sciences*; *Canadian Journal of Microbiology*; *Chinese Journal of Oceanology and Limnology*; *Ciencias Marinas*; *Cytometry*; *Deep-Sea Research*; *Ecohydrology & Hydrobiology*; *Ecology*; *Ecological Engineering*; *Ecology Letters*; *Endocytobiology and Cell Research*; *Environmental Microbiology/Env. Microb. Reports*; *Environmental Science & Technology*; *Estuarine, Coastal and Shelf Science*; *European Journal of Phycology*; *European Journal of Soil Biology*; *FEMS Microbiology & Ecology*; *Fresenius Environmental Bulletin*; *Freshwater Biology*; *Global Change Biology*; *Hydrobiologia*; *Int. J. Biodiv. Conserv.*; *Int. J. Environ. Res. Public Health*; *International Review of Hydrobiology*; *Intern. J. Water Resources and Environmental Engineering*; *Italian Journal of Zoology*; *Journal of Animal Ecology*; *Journal of Basic Microbiology*; *Journal of Eukaryotic Microbiology*; *Journal of Experimental Marine Biology and Ecology*; *Journal of Limnology*; *Journal of the Marine Biological Association of*

*the United Kingdom; Journal of Marine Systems; Journal of Plankton Research; Journal of Phycology; Limnologica; Limnology (The Japanese Society of Limnology); Limnology and Oceanography; Marine and Freshwater Research; Marine Biology; Marine Biology Research; Marine Ecology Progress Series; Microbial Ecology; Marine Environmental Research; Microbiological Research; Molecular Ecology; NATURE; Oecologia; Oceanological and Hydrobiological Studies; Proceedings of the Royal Society B; Polish Journal of Ecology; Protozoological Monographs.*

- Advisor/reviewer within the German DFG Priority Program Aquashift (2004-2010)
- Member of the Peer Review College of the Danish Council for Independent Research (since 2012)
- Reviewer for Natural Environmental Research Council (NERC, UK); National Science Foundation (USA); Netherlands Organisation for Scientific Research (NWO); The Research Foundation - Flanders (FWO, Belgium); The Danish Council for independent Research; German Research Foundation (DFG); European Science Foundation; Estonian Science Foundation; Swiss National Science Foundation; State Secretariat for Education, Res. and Innovation (CH); National Science Centre, Poland; Austrian Science Fund (FWF); Ministry of Education, Science and Culture (Austria); National Bank (Austria); Federal Ministry of Education and Research (BMBF, Germany); Autonome Provinz Bozen-Südtirol; World University Service - Austrian Committee, Sea Grant Program (US), and various search and promotion committees in several countries

### Most important research projects as Principal Investigator

**Morphology and ecology of endemic ciliates from bromeliads, funded by the Austrian Science Fund** (together with W. Foissner, Univ. of Salzburg, Project no. P20360-B17), 2008-2013; amount awarded to TW ~70,000 €.

**Global warming threatens biodiversity in (ultra)-sensitive alpine lakes: an assessment of past, present and future scenarios** (together with R. Kurmayer, ILIM; Austrian National Committee for Alpine Research): 01.08.2009-31.12.2012; amount awarded 233,000 €.

**Patterns and processes of adaptation and tolerance to low pH of freshwater plankton** (FWF Project P20118-B17): 01.07.2007-31.03.2011; amount awarded 295,009 €.

**Phenotypic and genotypic variability of *Meseres corlissi*** (Austrian Science Fund, FWF, Project P16796-B06): 01.01.2004-30.06.2007; amount awarded 216,740 €.

**Diversity and dynamics of autotrophic picoplankton** (Austrian Science Fund, FWF, Project P14238-B06): 01.03.2000-31.07.2003; amount awarded 226,971 €.

4 projects as PI on **Autotrophic picoplankton, heterotrophic nanoflagellates, and the microbial food web** within the Special Collaborative Program 248, 'Cycling of Matter in Lake Constance' funded by Deutsche Forschungsgemeinschaft (DFG): 1986-94, total amount awarded ~460,000 €.

Overview of research funding as PI:

Austrian Science Fund (FWF, 4 projects), Austrian National Bank (ÖNB, 1 project), Austrian National Committee Alpine Research (1 project), German Research Council (DFG, 7 projects), Commission of the European Community (2 projects), Volkswagen Foundation (1 project), Government of Upper

Austria (1 project), Government of Styria, Austria (1 project), Torrent and Avalanche Control, Section Upper Austria (1 project), Austrian National Committee for Alpine Research (1 project).

## **Publications** (July, 2017)

For details, see list attached

- Total number of publications: 169
- Number of peer-reviewed publications: 95
- First or senior authored peer-reviewed publications: 76
- h-index (ISI Web of Science/Google scholar) 30/36
- Citations: (ISI Web of Science/Google scholar) 3010/4138

## Refereed journal papers and book chapters (July, 2017)

- 95 **Weisse, T.** (2017). Functional diversity of aquatic ciliates. *Eur. J. Protistol.*, <http://dx.doi.org/10.1016/j.ejop.2017.04.001>.
- 94 Bergkemper, V., **Weisse, T.** (2017). Phytoplankton response to the summer heat wave 2015 – a case study from prealpine Lake Mondsee, Austria. *Inland Waters* 7, 88-99.
- 93 Cieplinski, A., **Weisse, T.** & Obertegger, U. (2017). High diversity in *Keratella cochlearis* (Rotifera, Monogononta) - morphological and genetic evidence. *Hydrobiologia* 796, 145-159
- 92 Warren, A., Patterson, D.J., Dunthorn, M., Clamp, J.C., Achilles-Daye, U.E.M., Aesch, E., Al-Farraj, S.A., Al-Quraishy, S., Al-Rasheid, K., Carr, M., Day, J.G., Dellinger, M., El-Serehy, H.A., Fan, Y., Gao, F., Gao, S., Gong, J., Gupta, R. Hu, X., Kamra, K., Langlois, G., Lin, X., Lipscomb, D., Lobban, C.S., Luporini, P., Lynn, D.H., Ma, H., Macek, M., Mackenzie-Dodds, J., Makhija, S., Manserg, R.I., Martín-Cereceda, M., McMiller, N., Montagnes, D., Nikolaeva, S., Ong'ondo, G.O., Perez-Uz, B., Purushothaman, J., Quintela-Alonso, P., Rotterová, J., Santoferrara, L., Shao, C., Shen, Z., Shi, X., Song, W., Stoeck, T., La Terza, A., Vallesi, A., Wang, M., **Weisse, T.**, Wiackowski, K., Wu, L., Xu, K., Yi, Z., Zufall, R. & Agatha, S. (2017). Beyond the "Code": A Guide to the Description and Documentation of Biodiversity in Ciliated Protists (Alveolata, Ciliophora). *J. Eukaryot. Microbiol.*, doi:10.1111/jeu.12391.
- 91 Ceriaco, L.M.P. et al (492 co-authors) (2016): Photography-based taxonomy is inadequate, unnecessary, and potentially harmful for biological sciences. *Zootaxa* 4196 (3): 435–445.
