MATHEMATIKKOLLOQUIUM

Das Institut für Mathematik lädt zu folgendem Vortrag ein:

Erika Hausenblas

Montanuniversität Leoben

S(P)DEs with Lévy noise

The talk will consist of two parts. In the first part the focus will be on stochastic partial differential equations with Lévy noise in general. Here I would like to give first some motivation. Then I will define the setting (infinite dimensional Lévy process, space-time Lévy noise..) and finally present some results.

The second focus will be on ergodic properties of solutions of SDEs and related results.

Zeit: **Freitag, den 24. Juni 2011 um 08.00 Uhr**

Ort: **Victor-Franz-Hess Haus, Technikerstraße 25, HS G**

Gäste sind herzlich willkommen!

Christel & Stefan Geiß
