Kurt Girstmair

18. Girstmair, Kurt, Continued fractions and Kronecker symbols, J. Integer Sequ. 18 (2015), Article 15.9.5 (10 pp.).

25. Girstmair, Kurt, Dedekind sums with arguments near certain transcendental numbers, Journal Integer Sequ. 16 (2013), Article 13.6.6 (9 pp.).

28. Girstmair, Kurt, Dedekind sums with arguments near Euler’s number $e$, J. Integer Sequ. 15 (2012), Article 12.5.8 (6 pp.).

76. Girstmair, Kurt, Dirichlet convolution of cotangent numbers and relative class number formulas. Monatsh. Math. 110 (1990), no. 3-4, 231–256.

80. Ledochowski, M; Girstmair, K; Pfister, R. A pocket computer programme
for the indication for operation of Pectus Excavatum, Comp. Meth. Progr.
Biomedicine 24 (1989), 209; for an extended German version see Atemw.-

81. Girstmair, Kurt, Über die praktische Auflösung von Gleichungen höheren Gra-
des. (German) [On the practical solution of equations of higher degree] Math.

82. Girstmair, Kurt, Ein v. Staudt-Clausenscher Satz für periodische Bernoull-
izahlen. [A theorem of von Staudt-Clausen type for periodic Bernoulli num-

83. Girstmair, Kurt, Character coordinates and annihilators of cyclotomic num-

84. Girstmair, Kurt, On invariant polynomials and their application in field theory.

86. Girstmair, Kurt, On the construction of primitive elements in field extensions.

87. Girstmair, Kurt, On the computation of resolvents and Galois groups. Manu-

88. Girstmair, Kurt, Linear dependence of zeros of polynomials and construction

91. Girstmair, Kurt, Elementare Berechnung von kubischen Diskriminanten. [El-
ementary computation of cubic discriminants] Arch. Math. (Basel) 32 (1979),
no. 4, 341–343.

92. Girstmair, Kurt, Über konstruktive Methoden der Galoistheorie. [On con-
structive methods in Galois theory] Manuscripta Math. 26 (1978/79), no. 4,
423–441.

93. Girstmair, Kurt; Oberst, Ulrich, Ein Verfahren zur konstruktiven Bestimmung
von Galoisgruppen. [A method for the effective determination of Galois groups]
