

CON JUNC TION

CONJUNCTION 2020

ORGANIZING IN DIGITAL TIMES

ORGANIZATION STUDIES

STUDENTS AND ALUMNI DAY

Many things change but some things do not:
OS ConJunction Day is coming up! This year, it's all about
the digital and organizing.

The digital permeates micro, meso and
macro level phenomena in societies and fundamentally
changes our
thinking and being. Digitization poses new and
unprecedented questions for
organizations and organizing.

How is the digital organized? How does it
organize us? What are (unintended) consequences
of digitalization within and across organizations? How does
digitalization change or reshape existing norms? What
forms of
interactions are enabled or impeded by digitalization? How
does the
digital change the nature of organizing?

These and many more questions will be addressed during
our ConJunction talks....
