

Ökologisches Kolloquium

SS 2026

März
23

Franciska De Vries
(University of Amsterdam)

"The role of root-microbe interactions in ecosystem C cycling in a changing climate "

17:00 HS A, Sternwartestr. 15, 6020 Innsbruck

April
13

Scott Hotaling
(Utah State University - Department of Watershed Sciences)

"Climate Change and the Fate of Mountain Ecosystems: What Does the Future Hold?"

17:00 Zoom

April
22

Daniel Kronauer
(Rockefeller University New York)

"The Social Behavior of Ants "

17:15 HS F, Technikerstr. 25, 6020 Innsbruck

Mai
11

Elise Pendall
(Western Sydney University)

"The Existential Challenge of Soil Carbon – Climate Feedbacks"

17:00 HS A, Sternwartestr. 15, 6020 Innsbruck

Mai
29

Johannes Rüdiger
(Universität Innsbruck - Institut für Ökologie)

"Biodiversity Under Pressure: Patterns and Human Interlinkages in a Changing World (Habilitation lecture)"

17:00 HS A, Sternwartestr. 15, 6020 Innsbruck

Juni
22

Jeffrey Duda
(USGS Western Fisheries Research Center)

"Rivers Reborn: Inspiring Lessons from the Elwha and the Movement to Restore Free-Flowing Waters"

17:00 Zoom

Institut für Ökologie

Universität Innsbruck - www.uibk.ac.at/de/ecology/
