

Bibliotels (Library Hotels)

Part 1: Individual long-turn

You are doing an internship at a new type of hotel that offers a wide range of books for their guests to read during their stay, called a *Bibliotel*. Your hotel manager wants to buy new books for English speaking readers and asks staff to research what books are best for the hotel's target guests. She has asked you to present your ideas at a meeting.

In your presentation you should

- argue what types of books she should buy
- express your opinion on e-readers for the hotel
- persuade the people in the meeting why buying English books is important
