Medical law under Trump 2.0: Effects in the US and globally

ZEIT: Dienstag, 29. April 2025, 17:15 Uhr

ORT: Hörsaal 5, Innrain 52e und online

Vortragender:

Dean M. Harris, J.D.

Associate Professor (Retired), Department of Health Policy and Management, UNC Gillings School of Global Public Health, University of North Carolina at Chapel Hill

Inhalt:

Actions taken by US President Trump will have significant effects on global public health. On the day of his inauguration for a second term, Trump took action to withdraw the US from the World Health Organization (WHO), and stopped US participation in negotiations for the WHO Pandemic Agreement. Within 4 days, Trump reinstated the Mexico City Policy, which is also known as the “Global Gag Rule.” That US policy restricts the activities of foreign non-governmental organizations (NGOs) that receive US government funds, and it has the effect of reducing access to reproductive health services in other countries.
