

Symposium Lab-Rotations WS 2017/18

Master ,Molecular Cell- and Developmental Biology‘

Monday, October 02, 2017,
starting at 5 pm

Lecture Hall G, Technikerstr. 25,
ground floor

17.00 – 18.00 Poster Presentations (in front of lecture hall G)

Ablinger Cornelia (Dechant), Baumgarten Saphira (Zwerschke), Cengiz Yeliz (Schwerte), Frommelt Laura-Sophie (Evans), Gogolla Falk Hagen (Singewald), Heigl Thomas (Apostolova), Hornsteiner Florian (Mack), Jedrezejczyk Franziska (Zoller), Kalb Marcus (Obermair), Lechner Lukas (Zoller), Mannschatz Sidney (Schweigreiter), Nägele Fabiana (Weinberger), Oberthaler Nathalie (Egg), Pascher Katharina (Stasyk), Pelikan Caroly (Vietor), Spöck Sarah (Manzl), Tisch Marcel (Wieggers/Villunger), von Troyer, Michael (Lusser), Wagner Sonja (Weinberger), Viktoria Zaderer (Dallinger).

18.00 – 19:00 Talks (in lecture hall G)

Lukas Lechner (Zoller): *Reproduction of the Phenotype of Aceruloplasminemia in Mice as a Disease Model for Gene Therapy*

Michael von Troyer (Lusser): *Generation of a transfection vector enabling a luciferase based reporter assay to investigate the effect of C5-Methylcytosine on gene expression*

Laura-Sophie Frommelt (Evans): *Creating next-generation oncolytic poxviruses*

Yeliz Cengiz (Schwerte): *The consequences of hypoxia on heart functions of wdt, golden and GATA1: kaede mitfa D. rerio lines and their heart regeneration capacity in normoxic water after 24*

19.00 - ? Come together in front of lecture hall G
