

Innsbruck Neuroscience Colloquium
Cell signaling in chronic CNS disorders

Inauguration of SFB F44

- November 25th, 2011 -

3:15 PM - 6:45 PM

Pharmacology Auditorium
Peter Mayrstrasse 1/I
Innsbruck, Austria

Program:

- 3:15 PM Opening remarks
Univ.-Prof. Dr. h.c. mult. Tilmann Märk, Rector, University of Innsbruck
Univ.-Prof. Dr. Herbert Lochs, Rector, Innsbruck Medical University
Univ.-Prof. Dr. J. Striessnig, speaker of SFB F44
Univ.-Prof. Dr. G. Dechant, speaker of the SPIN doctoral program
- 3:45 PM o. Univ.-Prof. Dr. W. Poewe, Innsbruck Medical University: "Unmet medical needs in neurology"
- 4:05 PM Prof. Dr. B. Liss, Ulm University: "Functional role of ion channels for dopamine neurons in health and Parkinsons disease"
- 4:40 PM Prof. Dr. Frank Kirchhoff, University of Saarland, Homburg: "Glial responses and differentiation in acute injuries of the CNS"
- 5:15 PM Coffee break
- 5:35 PM Prof. Dr. S. Herlitze, Bochum University: "Role of calcium channels in absence epilepsy, dyskinesia and ataxia"
- 6:10 PM Prof. Dr V. Broccoli, San Raffaele Scientific Institute, Milan: "Generation of functional dopaminergic neurons from mouse and human fibroblasts"
- 6:45 PM Buffet

SFB F44 Participating groups and universities:

- L. Aigner, S. Couillard-Despres - Paracelcus Medical University
- B. Flucher, G. Obermair - Innsbruck Medical University
- C. Humpel, J. Marksteiner - Innsbruck Medical University
- A. Hüttenhofer - Innsbruck Medical University
- B. Liss – Ulm University
- A. Lusser - Innsbruck Medical University
- N. Singewald – Innsbruck University
- J. Striessnig, A. Koschak - Innsbruck University and Medical University Vienna
- G. Wenning, N. Stefanova - Innsbruck Medical University

SPIN signal processing
in neurons
