

GASTVORTRAG

Prof. Dr. Thomas Abraham

Living learning within cultural and religious differences

TCI entered India in 1999. Ever since then it has been slowly, but steadily spreading in India. It has great relevance in India because in our schools and colleges, as well as in our adult education programmes, attitudes are „out of Syllabus“! In our multi-religious society there is great relevance for TCI because it teaches us to celebrate differences, rather than to just to live with them.
