

# Talents Designing Future Realities

The University of Innsbruck announces **three FULL SCHOLARSHIPS** for *Talents Designing Future Realities* for the program **Designing Future Realities**.

An application is possible until **30<sup>th</sup> November 2019** via <http://bit.ly/enrolment-dfr>

## Decision-making:

The applications will be reviewed by an awarding commission. After successful selection, all applicants will be informed by 16<sup>th</sup> December 2019 at the latest.

## Who can receive a scholarship?

- Applicants must have completed a bachelor's degree or have an equal qualification
- The call for applications should cover faculties and subjects as well as be thematically open.
- The scholarship is unique. An extension or re-assignment is excluded.
- The grant will not be awarded if the applicant has already received or receives any other support from public or private bodies for this project.

## Application

For application all documents must be submitted on time. Late or incomplete documents will be rejected for formal reasons.

1. CV (in tabular form)
2. Copy of your (Bachelor / Master) Diploma or equal qualification
3. Motivation letter
4. Extended portfolio of prior work
5. Project proposal (which explains the artistic agenda, the precise project with timeline and list of required equipment, further information depending on project, such as drawings, storyboards, recordings, clips, etc...)
6. English language certificate (Cambridge Certificate, TOEFL) / proof of English language skills (B2 level or higher)
