

AMAZONIA LATITUDE AND MOVIELIKE PRESENTS

# BEYOND FORDLANDIA

“ Beautiful film. The photography and the music that goes with it are really impressive. It really sweeps you along. ”

- Joe Jackson  
Winner of the Western Writers of America  
2017 Spur Award, Best Western Biography

## DOKUMENTARFILM

Beyond Fordlândia (2017, 82 min) presents an environmental account ninety years after Henry Ford's Amazon experience. In 1927 the Ford Motor Company attempted to establish rubber plantations on the Tapajós River, a primary tributary of the Amazon. The film addresses the recent transition from failed rubber to successful soybean cultivation for export, and its implication for land usage.
